### Survivor Benefits—Other Highlights

- Congress has cleared the way for a \$690 million Survivor Benefits program, providing higher payments to 185,000 widows, children and dependents. White House O.K. is certain for this important bill.—Page 2.
- Army officer promotions, for the first time since April 1955, have soared over the thousand mark during a single month, with advancements to colonel, lieutenant colonel, major and captain.—Page 3.
- A rent cut for 36,000 military families has won approval in the House and there is hope for favorable action in the Senate.—Page 5. A building program that calls for 84,218 units was being pushed by the House Appropriations Committee.—Page 34; but there was housing trouble elsewhere on Capitol Hill.—Page 36.
- Navy Secretary Thomas has approved the return of 13-button blue trousers for sailors instead of the less-favored zipper type.—Page 6. The Secretary also has spoken his mind about how admirals should be chosen.—Page 7.
- The Air Force continues to provide additional protection for its passengers. In April, MATS instituted insurance coverage and now similar policies are available for travel in Europe.—Page 8. On that page also, there's a special staff report on busy Hamilton AFB, Calif.

#### NEXT WEEK

- THE JOURNAL's salute to the greatest peacetime Summer Training program in National Guard history, which is marked by the special article by Maj. Gen. Edgar C. Erickson, Chief of the National Guard Bureau (Page 2) will be followed next week by a report by Maj. Gen. Donald W. McGowan, Chief of the Army Division. Our issue of 28 July will be featured by an article written by Maj. Gen. Winston P. Wilson, Chief of the Air Force Division.

Lt. Gen. Frederic H. Smith, jr., USAF (left) new Commander of the Fifth Air Force, visits United Nations and Far East Commander-in-Chief General L. L. Lemnitzer, USA, at his Pershing Heights headquarters in Tokyo. General Smith replaces Lt. Gen. Roger M. Ramey, USAF, who has returned to the States. General Smith will command widespread units of the Fifth Air Force in Japan, Korea and Okinawa.

### Here Is Breakdown By Rank Of Army, AF Augmentation Plans; Senate OK Due

Senate approval of the Regular Officer Augmentation bill was expected late this week.

Meanwhile, the Senate Armed Services Committee released a detailed breakdown—by rank—of the officers to be integrated into the Army and Air Force under the provisions of the bill.

	Army (By 1 July '58)	Air Force (By 1 Jan '58)
Col	20	0
Lt Col	800	0
Maj	1,400	2,613
Capt	2,700	12,790
1st Lt	1,630	7,206
2d Lt	450	3,160
Total	7,000	25,769

The Committee OK'd the Augmentation legislation and sent it to the Senate. Although the bill does not prescribe the number of persons to be integrated

in each grade, the Committee divulged complete Army and Air Force plans showing the number to be taken in in all ranks during the first phase of the program:

In the Air Force, the total of 25,769

### Air Chief Reports

(The following is the text of General Nathan F. Twining's statement to the Senate Armed Services Committee on 10 July covering his trip to Russia from 23 June to 1 July. It is the most documented report on Soviet military strength ever made by a member of the Joint Chiefs of Staff.)

THE trip was the result of an invitation conveyed to me on 29 May by the Soviet Air Attache in Washington, Colonel Bachinski. The invitation was extended on behalf of Marshal Sokolovski, Chief of Staff of the Soviet Armed Forces, representing the Minister of Defense, Marshal Zhukov. I was specifically asked to attend the air show at Tushino Airport, near Moscow, on the occasion of Soviet Air Force Day, 24 June.

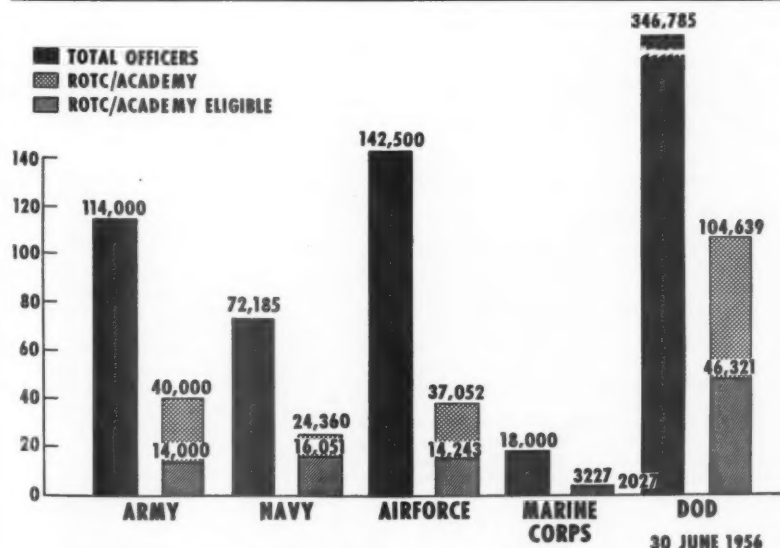

It was also suggested that I might visit what were described as "several technical air installations" as well as a Soviet Air Force higher training establishment. The Soviet Government, I might add, offered to pay the expenses of my party during our stay in the USSR.

The question of whether the invitation should be accepted was carefully weighed at the highest levels of our Government. The decision that I should go was made by the President.

A MAJOR CONSIDERATION in that decision was the desire on our part to find out how far the Soviet Government was prepared to go in exposing the operations and equipment of its Air Force and the supporting air establishments. We also felt that these specific purposes would be served by such a visit:

- It might provide us with an opportunity for a firsthand appraisal of the

—Continued on page 24

A PROPOSED pay increase of \$25 million for more than 46,000 officers is under consideration by a House Armed Services Subcommittee.

Assistant Secretary of Defense Carter L. Burgess told the group that the legislation (HR 10212) "will have positive and far-reaching beneficial influence."

Under the terms of the legislation, officers would receive longevity credit for the time they spent at Service Academies or in ROTC. The credit would not accrue, however, until the individual had completed four years of active duty. Nor would it be retroactive.

The credit would mean an increase of about \$10,000 for such officers during a 30-year career.

The above chart shows the total number of officers on active duty in each of the Services as of 30 June; the number who are ROTC/Academy graduates; and the number of the latter group who would be eligible for increased longevity pay under the terms of HR 10212.

Although the measure has the backing of President Eisenhower, hearings were instituted so late in the session that there is a strong possibility Congress may adjourn without taking final action on the proposal.

### Pentagon Will Pay Force-Out Millions

(Table of Payments, Back Page)

The Pentagon prepared this week to give readjustment pay to Reservists involuntarily released from active duty on or after 9 July 1956. Almost \$12 million is expected to be paid out to Reservists released during the next 12 months.

President Eisenhower signed the new "force-out pay" act into law (Public Law 676) on 9 July.

All Reservists forced to leave the Service after that date will receive the benefits of the law provided they have completed at least five years of active duty and are not eligible for immediate receipt of retired pay.

The payments will constitute one-half of one month's pay (the basic pay of the grade held at time of release) for each year of active duty but not for more than 18 years.

Reservists who have completed a tour or category of active duty and have volunteered for an additional tour of duty only to be turned down also are eligible for the readjustment pay.

## National Guard, with 5,350 Army and 623 Air Units, Hits Greatest Strength in History During Tenth Year of Reorganization

By Maj. Gen. Edgar C. Erickson, USA  
Chief, National Guard Bureau

**I**N the long history of the National Guard, many units of which perpetuate the history and traditions of Colonial militia, no period has seen it grow and develop so rapidly as has the decade since its reorganization following World War II.

As in past wars, National Guard organizations will be among the first of the reserve components to be mobilized in any future emergency. Somewhere between the planning for mobilization, actual mobilization, training and finally combat, practically every officer of the Army, the Air Force, and even the Navy, will in some manner brush with or become involved with National Guard organizations. Even in times of peace many officers will have an opportunity to serve as advisors for National Guard units, or otherwise have contact with Guard organizations.

It follows then that an understanding of the National Guard and the role it plays on the National Defense team is important.

In this and in two articles to follow which have been prepared by the Chief, Army Division, and Chief, Air Force Division, National Guard Bureau, the present day status of the Army National Guard and the Air National Guard will be discussed.

Generally the peacetime organization of the National Guard as a state military force commanded by the Governors of the respective states is known. Besides providing the organization and assuming responsibility for meeting and maintaining strength quotas, the states also are obliged to contribute certain funds for National Guard support. These funds cover salaries for state military department employees and other operating costs. They include also the state's share of armory construction and maintenance.

While the Army and Air National Guard are in peace time under state

control, it is required that they meet Federal requirements in strength and maintain satisfactory training levels to qualify for Federal support. This support includes, pay and allowance for members of the National Guard, contribution to armory construction and maintenance, training aides and equipment and other supplies.

**IN THE EVENT OF MOBILIZATION** National Guard units may be "ordered" or "called" into Federal service. When "ordered" into Federal service the National Guard organizations assume their "National Guard of the United States" status and are no longer under state control. Under the "call," Guard organizations are subject to all the regulations and laws that govern the active Army, except that the Governor of the state or territory retains the right to appoint and promote officers in the units.

While the "call" still is provided for by law, it was last used by President Wilson on 25 March 1917, to bring thousands of National Guard troops into Federal service to guard railroad bridges and other vital installations prior to the declaration of war by Congress on 6 April of that year.

At the outbreak of World War I, the number of National Guardsmen brought into active Federal service totaled approximately 12,000 officers and 368,000 enlisted men. The number ordered into Federal service during 1940-41, totaled 20,676 officers and 279,358 enlisted men.

During the Korean emergency the Army National Guard furnished eight infantry divisions, two RCT's and several thousand non-divisional units of various branches of service. The Air National Guard furnished 66 tactical squadrons and nearly 80 per cent of its personnel.

Today, 10 years after its reorganization following World War II, the strength of the Army and Air National Guard is 471,532. There are 5,350 Army units and 623 Air units. These units are located in more than 2,500 communities in the United States and the territories. The strength of the Army National Guard is approaching 408,000, while Air National Guard strength is nearly 64,000.

**WITH THE ACTIVATION** of the United States Air Force as a separate component in 1947, the Air National Guard of the U. S. came into being as a

separate reserve component. It is significant that the first National Guard unit reorganized after World War II was an Air unit, the 120th Fighter Squadron of the Colorado National Guard. This unit was activated on 30 June 1946.

The decade since its reorganization has been highlighted by a number of major accomplishments. The National Guard achieved its greatest strength in history and has continued to increase its level of mobilization readiness. National Guard commanders are realistic enough, however, to admit that even greater readiness must be achieved and there is more and more emphasis on Guard training.

Throughout the Army National Guard today an intensive promotion campaign is being conducted to get eligible recruits to volunteer to take six months of active duty training with the Army as provided by the Reserve Forces Act of 1955. You will learn in the articles to follow what other programs are conducted in both the Army and the Air National Guard to increase its readiness.

**OTHER IMPORTANT ACHIEVEMENTS** in the past ten years were the assignment of certain National Guard anti-aircraft artillery units to "on site" missions and the assignment of Air National Guard fighter units to the runway alert program. In both these programs Guard units play an active, full time role in continental defense under control of the Continental Defense Command.

It should be noted that the National Guard has come this distance because of the splendid support of both the Army and the Air Force and the full support of the governors and legislatures of the states and territories.

The National Guard's contribution to National Defense, within the limits of time and facilities common to all reserve components, has been substantial. It has in recent months assumed additional responsibilities in national defense and is ready to assume even greater responsibilities. Its record of Federal service is unmarked by any complication resulting from its state status. It is proud of having preserved the militia concept and is prepared to answer any call in peace or war as readily, and with all the spirit that inspired the Minutemen at Lexington and Concord.

Maj. Gen. Erickson

## Survivor Bill Heads For White House O.K.

The \$690 million Survivor Benefits Bill will go to the White House next week for certain Presidential approval.

A final vote on the measure is expected in both the Senate and House by 18 July. Conferees ironed out differences in the House and Senate versions of the bill on 11 July and sent the bill back for final action. Members said it would be several days before a report can be filed, a necessary action before the final vote.

Coverage for members of the Public Health Service and Coast and Geodetic Survey — previously erased by the Senate — was placed back in the bill.

The conferees also agreed to the House proposal to drop all free insurance benefits in favor of the more liberal VA dependency and indemnity compensation. The Senate had asked for continued free insurance coverage in time of war.

A new provision concerning Social Security also was adopted by the conference group. It states that if a Serviceman who is not fully insured under Social Security dies on active duty or from a Service-connected cause after December 1956, his widow would receive an additional benefit from the Veterans Administration equivalent to the Social Security benefit to which the man would have been entitled had he been fully covered.

The new Survivor Benefits program

will go into effect on 1 Jan. 1957.

In addition to the compromise provisions agreed upon this week, the legislation provides:

1. Contributory Social Security coverage for all active duty Service personnel. All persons in uniform will pay 2 per cent of their basic pay, up to \$84 per year.

2. New VA dependency and indemnity compensation payments will go to all widows of personnel who die on active duty or from Service-connected causes. The payments will include a flat base of \$112 per month, plus 12 per cent of the basic pay of the deceased member.

3. The \$10,000 free life insurance program is terminated.

4. The maximum six month death gratuity is reduced from \$6857 to \$3000, and the minimum is raised from \$468 to \$800.

5. Federal Employee Compensation Act benefits are discontinued for Reservists coming on active duty after passage of the bill. Elimination of FECA benefits means that all future survivors will receive identical payments without regard to whether the deceased was a Reservist or Regular.

6. Portal to portal coverage is provided for all Reservists who are killed or die while travelling to or from active duty for training or inactive duty training.

7. Survivors would be required to file only one application for the new benefits. At present, they must file at least four.

8. If there is no eligible widow, surviving children will receive benefits which are slightly higher than those now in existence, but the rates have no relationship to the pay grades of the deceased servicemen.

9. Payments to parents are changed to a sliding scale basis with 15 rates. The rates range from \$10 to \$100 per month, based on the annual income of the parents.

10. Widows, children or parents eligible for compensation based on a death prior to 1 Jan. 1957 may elect to take compensation under existing laws or under the provisions of the new survivor benefits measure.

**COL. JAMES O. WADE, USA, (right),** who retired from active service after more than 31 years of Army duty, shakes hands with Col. Paul T. Snowden, USA, Ft. Carson, Colo., chief of staff. Other officers waiting to bid farewell to the veteran officer are (to Colonel Snowden's left) Col. John K. Flemming, USA, post logistics officer; and Lt. Col. Stephen A. Hewitt, USA, post intelligence officer. Last goodbyes were said at Carson's main gate. (For other news of Service Retired turn to Page 29.)

## Service Legislation

### President Signed—

**CEMETERY MARKERS**—S. 2512, authorizes erection of appropriate markers in memory of unknown war dead. Public Law 651; signed 3 July.

**REHABILITATION PAY**—HR 9952, authorizes rehabilitation pay for Reservists involuntarily released from active duty. Public Law 676; signed 9 July.

### Sent To White House—

**MILITARY CONSTRUCTION** — HR 9893, authorizes \$2.1 billion for military construction (including \$80 million for family housing in the U.S., and \$150 million for family housing overseas) during Fiscal Year 1957.

### House Passed—

**RENT CUT**—HR 5731, authorizing rent cut for 36,000 military families forced to occupy inadequate quarters. Sent measure to Senate.

### Senate Passed—

**USCG TEMP PROMOTIONS** — HR 11402, extends existing authority for USCG to make promotions under Temporary Promotion Act of 1941. Sent amended measure back to House.

## Seven Pilots Compete In Ricks Trophy Event

Maj. Gen. Winston P. Wilson, Chief of the Air Force Division, National Guard Bureau, has named seven Air National Guard pilots to compete in the third annual Ricks Memorial Trophy Event on 28 July.

Maj. Henry C. Bosserman of the 115th Fighter Interceptor Squadron, Van Nuys, Calif.

Maj. Leland W. Cranmer, 108th Fighter Interceptor Group, Newark, N. J.

Maj. Joseph R. Donahue, Jr., 195th Fighter Interceptor Squadron, Van Nuys, Calif.

Maj. David F. McCallister, 142d Fighter Interceptor Squadron, Wilmington, Del. Capt. Charles R. Carmichael, 8156th Replacement Training Squadron, Charlotte, N. C.

Capt. Vernon D. Jersey, 163d Fighter Interceptor Squadron, Ft. Wayne, Ind.

Capt. Robert E. Railey, 121st Fighter Interceptor Squadron, District of Columbia Air National Guard, Andrews AFB, Md.

Maj. McCallister and Captains Carmichael and Jersey are veterans of the 1955 event which was flown, as was the first one in 1954, between Ontario International Airport, Ontario, California, and Wayne-Major Airport, Detroit, Mich.

As previously announced by the Air Force Association, sponsor of the all-jet, all-Air National Guard Competition, this year's course will be between Hamilton AFB near San Francisco, Calif., and Moisant International Airport at New Orleans, La.

Another change in the event is the limitation of participation to units operating the same type of aircraft—this year North American F-86 Sabrejets.

The Ricks event memorializes the late Maj. Gen. Earl T. Ricks, at one time the Adjutant General of Arkansas and General Wilson's predecessor as Chief of the Air Force Division, National Guard Bureau.

## Majors' List Has 114 Months Cutoff

The Army named 136 captains for promotion to temporary major in S.O. 137, with rank from 10 July. This increment advanced the cutoff date to 27 September 1950 through 114 months service.

## Drop USNA Airfield

The proposed Naval Academy airfield has been dropped from the 1957 military construction program.

Although House and Senate conferees said the Navy air arm has "become of such importance to our Naval Establishment as to make indoctrination in air matters an important part of the training of a midshipman," they agreed to eliminate authorization for the controversial airfield.

House members said they "hope some reasonable solution to this problem can be found."

## Col. Stone At Presidio

Newly appointed Executive Officer of the Sixth Army Adjutant General Section at the Presidio of San Francisco, Calif., is Col. Frank H. Stone, USA, of 18 Billou St., San Rafael, Calif.

Colonel Stone is married to the former Miss Frances Lewis, daughter of Maj. Gen. Henry B. Lewis, USA-Ret., 2525 Larkin St., San Francisco, and the late Mrs. Lewis. The Stones have three children, Henry, 12, Sally, 11, and Cynthia Ann, 6 months old.

## IN THE RECORD

THE JOURNAL account of the opening of the "World's Greatest Air Base" at Portsmouth, N. H., (7 July), has been inserted in the *Congressional Record* by Senator Norris Cotton (R-NH).

"In addition to outlining the details of the ceremony and the key importance of the new base to the defense of the Nation, the article gives just recognition to the senior Senator from New Hampshire (Mr. Bridges), who contributed so much to the locating and the building of this great base in southeastern New Hampshire," Senator Cotton said.

The new Portsmouth AFB is the home of the 817th Air Division, commanded by Brig. Gen. Walter E. Arnold, USAF.

## Army Advances 168 To Lieutenant Col.

The Army has promoted 53 line officers to temporary lieutenant colonel, with a cutoff date of 26 October 1950.

Also advanced to lieutenant colonel in S.O. 135, effective 6 July, are 7 MC, 12 DC, 1 VC, 89 MSC, and 6 WAC officers.

## Service Construction

### Bill Goes To President

The President is expected to give his approval shortly to the \$2.1 billion military construction program for fiscal '57. The compromise bill provides \$323.4 million for the Army, \$438.2 million for the Navy and Marine Corps, and \$1.3 billion for the Air Force.

About \$80 million is included in the measure for family housing in the continental United States, and the Services are authorized to use an additional \$150 million in foreign currencies obtained from the Agricultural Commodities program to build housing overseas.

## House Group Asks End To TALOS-NIKE Feud; AF Funds Restored

The TALOS vs. NIKE controversy encountered two new developments this week at the Capitol.

The House Appropriations Committee told the Defense Secretary to find out which missile is the best and to define Army and Air Force air defense missions.

Meanwhile, a House-Senate conference group restored to the 1957 military construction bill \$16 million slated for TALOS sites. The bill is now at the White House.

The latter item had been deleted by the Senate Armed Services Committee on the grounds that no other system exists "that can do the job for which NIKE was designed."

**IN RESTORING THE FUNDS**, the conferees agreed that the authorization "should not be used until the Secretary of Defense has come into agreement with the Armed Services Committees." Behind their action, the Senators and

Congressmen said, "lies the concern which has been expressed over the very large expenditures involved," the relative merits of the TALOS and NIKE systems, and the proper assignment of roles and missions in both programs.

The group said they understand "the respective merits of these two missiles will be the subject of very detailed studies and tests which will provide guidance to the respective committees in necessary future determinations relating to this important problem."

Such tests were recommended by the Appropriations Committee.

The latter group "strongly urged that the Secretary take immediate steps to appoint a committee of qualified experts in this field, selected from outside of the military departments or private business enterprises which may be directly involved, to make an impartial and objective evaluation as to the merits and potentialities of the TALOS and NIKE

missiles as air defense weapons.

"In addition," the Committee said, "it is imperative that the question of air defense missions in the missile field be resolved and definitized as between the two Services involved."

**THE TWO SYSTEMS**, the Appropriations group stated, appear to be duplicative from the standpoint of missions assigned to the Army and Air Force. The AF proposes to purchase sites and install launching equipment for TALOS in the same manner that the Army plans to increase the present number of NIKE sites for defense of similar areas.

"This raises the question," the Committee said, "as to which Service can best carry out the mission." It is the House group's opinion that the mission "should not be divided."

In the interest of National Defense and the most effective use of appropriated funds, the Committee said the problem "should be immediately resolved."

## U. S. Army

**SETAF INSIGNIA**—The official shoulder sleeve insignia of the Southern European Task Force is triparted vertically with the colors, red, white, and blue. Superimposed on the colors is a winged lion "passant guardant" above a bar, his right forepaw resting on a book and holding a dagger vertically, all in yellow. On the book are the blue letters, "FAX." Above the patch is a red scroll with the word "SETAF" in yellow letters. The winged lion of St. Mark symbolizes NATO affiliation. The red, white, and blue are the U.S. colors. The mass of red on the background of the lettered SETAF refers to the Artillery, the major branch of the organization.

### Col. Dodson To Japan

Col. Claude C. Dodson, MC, USA, Chief of the Urology Service at Brooke Army Hospital, Tex., has left for assignment as chief of the same service at Tokyo Army Hospital, Japan.

### 5th Infantry Div. C of S

Col. Thomas N. Sibley, USA, is the new Chief of Staff of the 5th Infantry Division and Ft. Ord, Calif. He had been at the Presidio of San Francisco as Executive Officer of the G-1 Section, Headquarters Sixth Army.

### MEDICAL INFO. CHIEF

Lt. Col. Eugene J. Mullaghy, MSC, has assumed the duties of Chief, Technical Liaison Office, Office of the Army Surgeon General, following the departure of Lt. Col. Lawrence G. Alexander, MSC, for Ft. Sam Houston, Tex.

As Chief of the Special Projects Section, Colonel Mullaghy has been stationed in the Technical Liaison Office since July 1953.

Maj. William V. Davis, MSC, recently arrived from Ft. Sam Houston to succeed Colonel Mullaghy.

### GEN. WAINWRIGHT IS HONORED

The old Officers' Club at Ft. Myer, Va., has been renamed Wainwright Hall in memory of the hero of Corregidor, the late General Jonathan M. Wainwright.

As renovated, the building will include the Colonial Room, formerly the "Old Guard Lounge," and bachelor officers' quarters upstairs along with several suites for visiting dignitaries.

Guest of honor for the dedication ceremonies on 9 July was General Wainwright's son, Capt. Jonathan M. Wainwright V, U.S. Merchant Marine. Ft. Myer commander, Col. J. Paul Breden, USA, opened the ceremony, followed by an address by Maj. Gen. Guy V. Henry, USA-Ret.

## New General "Makes" Show Youth Trend

PRESIDENT EISENHOWER has named Maj. Gen. John F. Uncles, USA, to succeed Lt. Gen. George H. Decker, USA, as VII Corps Commander in Germany. General Decker previously was designated for four-star rank as Deputy C-in-C, U. S. European Command.

General Uncles, 57, is a 1922 graduate of the U. S. Military Academy.

The President named Brig. Gen. Evan M. Houseman, USA, 50, and Brig. Gen. Robert W. Porter, jr., USA, 48, to be major generals as respective commanders of the Atlantic Transportation Terminal Command at Brooklyn, N. Y., and the 3d Armored Division in Germany. General Houseman has basic date from 1928 and General Porter, from 1930.

The following list of 11 colonels nominated for brigadier general shows that three have 1933 dates of rank; two are 44 years of age. The list shows the officer's age, then, his basic date, and then his present or proposed assignment.

### For Temporary Brigadier General

Roy N. Walker, 52, '29, Adj Gen, USAFFE, APO 343, SanF, Calif; Philip F. Kromer, jr., 50, '30, Engr, USAFFE, APO 343, SanF, Calif; Alden P. Taber, 49, '30, CG, Ord Tng Comd, Aberdeen, Md.; Frederick D. Atkinson 51, '30, Trans Off, USAREUR, APO 403, NY; John C. Monahan, 49, '31, Dep Ch, Army Security Agcy, Wash. DC; Frederick W. Ellery, 46, '32, Div Arty Comd, 1st Inf Div, Ft Riley, Kans.; George T. Duncan, 46, '32, CG, Berlin Comd, APO 742, NY; William M. Thames, jr., 48, '32, Dep CG, Electronics Proving Grd, Ft Huachuca Ariz.; Robert C. Tripp, 44, '33, Asst Ch/Trans for Opns, DA, Wash. DC; James H. Polk, 44, '33, Asst Div Comd, 3d Armd Div, USAREUR, APO 39, NY; Sherburne Whipple, jr., 46, '33, Dep CG, Armd Cen, Ft Knox, Ky.

MRS. RUSH B. LINCOLN JR., wife of the commanding general of the Transportation Training Command, Fort Eustis, Va., affixes two stars to the General's collar, marking his promotion to Major General.

### \$21½ Million Contracts Let For Ft. Carson

Three construction contracts totaling \$2,351,629 at Ft. Carson, Colo., have been awarded by the Army Corps of Engineers district office in Omaha, Neb.

The Mack and Best Construction Co. of Wichita Falls, Tex., was awarded the contract for building a regimental size dispensary and a post headquarters building at Carson. The Texas firm submitted a low bid of \$1,016,659.

The Ramsey and Anthony Co. of Lubbock, Tex., was announced as contract winner for construction of a regimental size motor park at Carson, bidding \$877,277.

A Denver, Colo., firm, the Mountain States Construction Co., was given the contract to expand utility services at Carson to serve 440 federally-financed family housing units on post. Cost of the work was set at \$457,743.

### Engineer School Exec

Col. Louis W. Correll, CE, USA, has been assigned as Executive Officer of The Engineer School, Ft. Belvoir, Va., replacing Col. Gerald P. McCarthy who was assigned to Talahoma, Tenn.

### Move and Retire

Brig. Gen. Robert H. Booth, USA, Artillery Commander, 3d Infantry Division, Ft. Benning, Ga., has been assigned to Headquarters, First Army, Governors Island, N. Y., in August.

BRIG. GEN. PAUL A. DISNEY, USA, Assistant Commander, 4th Armored Division, Ft. Hood, Tex., has been assigned to Headquarters, U. S. Army Training Center (Armor), Ft. Knox, Ky., and will report 1 Sept.

BRIG. GEN. JOHN R. WOOD, USA, Director, Walter Reed Army Institute of Research, Walter Reed Army Hospital, Washington, D. C., will retire 31 July after more than 28 years' service.

BRIG. GEN. FREDERICK P. MUNSON, USA, Special Assistant for Overseas Affairs, Office of the Assistant Army Chief of Staff, Intelligence, Washington, D. C., will retire 31 July after more than 30 years' service.

## now - - maybe you can qualify

Serviceman? Veteran? Civil Service employee assigned to the Armed Forces? Then you're eligible to apply for the special hospitalization program of the Armed Forces Medical Aid Association.

A non-profit organization originally set up for full-time servicemen only, AFMAA has

now broadened its requirements. As always, membership gives top coverage for members and families, whether in civilian or government institutions.

Write today for details on this all-round protection—available to you at cost.

## House OKs \$11 Million Rent Cut For 36,000 Military Families; Faces Senate Action

Reduced rents—worth about \$11 million—for military families forced to occupy inadequate quarters have been approved by the House.

As THE JOURNAL went to press the legislation (HR 5731) was before the Senate Armed Services Committee.

The measure authorizes the military departments to give Servicemen their full quarters allowance, charge them lower rents if they are in inadequate quarters, and allow them to pocket the difference.

Representative Paul J. Kilday (D-Tex), who managed the bill on the House floor, said "there are some 36,000 units of inadequate family housing but which are technically public quarters and which, therefore, require the surrender of the total housing allowance. This bill is designed to permit these houses to be occupied by our military personnel—and in perhaps over 90 percent of the cases, by enlisted personnel—upon the payment of the fair market rental of the quarters. In other words, they would

occupy these quarters in the same way and for the same amount as they would occupy similar quarters in the nearby town, if such were available."

Congressman Kilday noted that authority for the rent cuts is provided for only two years. This is due to the fact, he said, that "the Armed Services Committee wants the departments to get out of the substandard housing business and out of the rental business."

### Walter Reed PIO

Capt. Edward M. Strobel, USA, 9402 Adelphi Rd., West Hyattsville, Md., has been appointed Public Information Officer at Walter Reed Medical Center.

## Pioneer put that smile on his face!

There's many a worried face in the aircraft industry . . . especially when it comes to ordering odd shipments of aluminum extrusions. But thanks to PIONEER'S unique service, those frowns are giving way to smiles. For only PIONEER ships aluminum extrusions (in any quantity) the same day you order — and ships them anywhere in the world!

The largest stock of aircraft aluminum shapes and alloys in the entire industry (1,250,000 pounds!) is within your arm's reach — just call PIONEER. Aircraft alloys in 2024 (24S) and 7075 (75S), and all Army-Navy Drawing standards and standard open die extrusions, plus many other standard aircraft shapes, are warehoused for immediate shipment . . . over 2000 different shapes!

All stock is new mill material, and PIONEER stocks it in an oiled condition to prevent corrosion . . . carefully packages it for safe shipment.

Partial view of PIONEER'S 90,000 square foot warehouse.

Modern warehousing, the PIONEER way, is a big money saver: speeds production, saves storage space, cuts overhead. You have lower insurance, taxes, accounting and handling costs. You can afford to experiment because PIONEER will deliver in any quantity, no matter how small — and because PIONEER ships the same day you order, you can relax in emergencies!

If building or maintaining aircraft is your business, you need PIONEER'S new catalogue. It gives complete sizes, dimensions, factors, etc. Its exclusive cross-reference section is an invaluable aid. Send for it today, and let PIONEER put a smile on your face!

## U. S. Navy and U. S. Marine Corps

ADMIRAL WILLIAM M. FECHTER, USN, outgoing C-in-C, Allied Forces Southern Europe, (left) and his successor, Admiral Robert P. Briscoe, USN, are shown during change of command ceremonies at Naples, Italy.

### USN Names Members Of Rear Admiral's Bd.

The Navy has released the names of members of the flag board which met on 5 July to choose Line captains for temporary advancement to two-star rank.

Admiral Felix B. Stump, USN, Commander-in-Chief, Pacific, and U. S. Pacific Fleet, is President of the board.

Other members are:  
Vice Admirals Alfred M. Pride, USN, Frederick W. McMahon, USN, Charles Wellborn, Jr., USN, Ruthven E. Libby, USN, Edward W. Claxton, USN, and Lorenzo S. Sabin, Jr., USN; Rear Admirals Charles C. Hartman, USN, Frank T. Watkins, USN, Leslie A. Kniskern, USN, Clifford H. Duerfeldt, USN, William A. Dolan, Jr., USN, Leroy V. Honninger, USN, Carl J. Pfingst, USN, and George F. Beardsley, USN; Captain Richard E. Harmer, USN, Recorder; and Lieutenant Commander Richard G. Alexander, USN, Assistant Recorder.

## SecNav O K's 13-Button EM Pants And Return Of Signalman Insignia

Navy Secretary Charles S. Thomas has approved the return of 13-button "broad fall front" blue trousers for EM and reinstatement of the Signalman's rating insignia.

The decision to revert to button trousers, instead of the zippered type, was made on the basis of strong enlisted opinion. A poll of the Fleets revealed that 86 per cent of all EM in the Atlantic Fleet preferred the "old Navy" pants. In the Pacific Fleet, 93 per cent stated a preference for elimination of the zipper.

In general, sailors stated that the old style fitted better and looked "more Navy."

The Navy plans to use up all existing

stocks of zipper models before issuing the 13-button style.

The 13-button trousers will have two front pockets parallel to the waistline. The side pockets, which are built into the zippered trousers, will be eliminated to prevent "gap-osis," the Navy said.

The return to the Signalman rating insignia follows on the heels of the recent reinstatement of the traditional rate. The insignia consists of two crossed semaphore flags. It was abolished in 1948.

In addition, the Secretary authorized enlisted recruits at Naval Training Center to wear organizational-issue standard white leggings on ceremonial and dress-parade occasions.

### USN Rules For Wear Of Miniature Medals

A new rule governing wear of miniature medals by officers has been incorporated into Navy Uniform Regulations.

The present limit of five miniature medals per bar, for wear on officer evening dress and mess jackets, has been raised to a maximum of 11 miniature medals, 50 per cent overlapped on a standard 4 1/4-inch bar. The new rule does not require any change for officers who now have miniatures mounted five per bar, but allows latitude for those wearing more medals. If more than 11 medals are worn, they will be arranged in two rows; if more than 22, in three rows.

Shorter bars (less than 2 1/4-inches) will continue to be worn on the left lapel of evening dress uniforms; the longer bar will extend over the edge of the lapel and be pinned onto the breast of the coat.

### Nominate Marine CWO

President Eisenhower has nominated Cedric A. Fevury, USMC, for permanent appointment in the grade of Chief Warrant Officer, W-3.

### Marine Corps Picks 87 Warrants And 9 LDO's

Marine Corps selection boards have picked 52 temporary officers, 34 enlisted men and one enlisted woman for permanent appointments to the grade of warrant officer, W-1.

At the same time, seven EM and two officers were named for appointments to LDO status in the rank of 2d lieutenant.

The selection boards, headed by Col. Howard B. Bengt, USMC, considered the records of 780 candidates.

Temporary officers chosen for permanent warrant rank will continue to serve in their present grade until future considerations require their reversion. Temporary officers selected for LDO appointments will assume their new ranks immediately upon acceptance of appointments.

All selectees will be given dates of rank of 1 July 1956.

The following is a list of those picked in the various categories (names preceded by an asterisk indicated enlisted):

#### TO LDO

*Drake, James R.	Germaglan, Barker P

## SecNav Cautions Flag Selection Board To Consider Pass Overs "Without Prejudice"

Navy Secretary Charles S. Thomas has advised the flag selection board which met on 5 July that "careful" consideration should be given to officers previously passed over.

At the same time, the Secretary reemphasized the "youth trend" which he first enunciated a year ago.

He reminded the board, headed by Admiral Felix B. Stump, USN, Commander-in-Chief, Pacific, and U. S. Pacific Fleet, that failure of selection for the first time should not prejudice an officer's chances.

Last year's board passed over more than 200 officers for the first time and nearly 140 for the second time.

In this connection, however, it is noted that the fiscal year 1957 promotion zone is the smallest in the past six years—62.

Here's a complete text of the Secretary's letter to the board:

"The task of selecting officers who will constitute top leadership in the Navy during the next ten years is one of transcendental importance. I know that you and the members of the selection board of which you are president are well aware of this heavy responsibility to the Navy and to the Nation. I hope the following observations may be helpful. They are not intended to interfere in any way with the independence of the board which is guaranteed to it by statute and is essential to the integrity of the Navy's long-tested and proven selection system.

"In recent years considerable emphasis has been placed on the importance of officers with specialized skills in our new scientific Navy. It is frequently necessary to keep an officer in some technical field, such as nuclear power, electronics, guided missiles, and other rapidly changing technologies, for much longer than normal periods. If the Navy requires an officer to stay in a specialized field for the good of the service, the Navy must see to it that he does not suffer in promotion as a consequence.

"However, I am sure that the board will also recognize the primary importance of officers qualified for command at sea. Under the National Security Act of 1947, as well as by tradition and nature, the Navy must be organized 'primarily for prompt and sustained combat incident to operations at sea.' I am confident that the board will keep in mind our paramount need for flag officer leadership in combat operations.

"The number of major combatant ships now in commission is insufficient to permit assignment of such commands for an appropriate tour of duty to all officers of flag potential. Accordingly, selection boards of necessity must evaluate an officer's capabilities from his entire experience, performance, and attributes and should recognize that the essential command attributes are called for and demonstrated in many types and units besides the major combatant ships.

"I am sure that the board is aware of the increasingly important requirements that a flag officer shall be adept in relations with officers of other services, other governmental officials, the Congress and the general public. He must be articulate in both written and oral communications, progressive in outlook, experienced in administration, and capable of performing the semi-diplomatic, intra-governmental, and social duties required of him; as well as having the strong moral fibre, physical stamina, and professional ability

required of all high ranking naval officers.

"The officer personnel act requires that a selection board shall consider all eligible officers in determining who are best qualified and in the case of selection to rear admiral, places no limitation on the number which may be selected from below the promotion zone. The legislative history of the act clearly shows the intent of Congress that in making selections to the grade of rear admiral, selection boards should afford earlier advancement to exceptionally outstanding officers, without reflection on their contemporaries in any way. If sound judgment and balance are

used, selection of preeminent officers for early promotion can be an assurance to all officers that a career in the Naval Service offers recognition for exceptional ability and performance without prejudicing the normal promotion opportunity for the remainder.

"The statute specifically provides that the status of having failed of selection for temporary promotion shall not be considered as prejudicial to an officer with respect to his qualifications, his fitness for the Naval Service, or his eligibility for selection by the next succeeding board. To carry out the spirit of this provision, the board should consider carefully and without prejudice the records of those officers who have been previously passed over. When such a small proportion can be selected for flag rank, there are bound to be many outstanding officers who are not

Army Navy Air Force Journal  
14 July 1956 (Vol. 93, P. 1431)

chosen. A second fresh consideration by a board composed entirely of new officers is the only appeal provided by statute from non-selection by the first board. It is only by following the spirit and letter of this provision that equitable promotion opportunity can be given to the individuals concerned, their enthusiasm maintained, and the integrity of our selection system preserved.

"You have my best wishes in the important task confronting you and my complete confidence that you and the board will select those officers for promotion who will best serve the overall interests of the Navy and the country."

## BRANIFF International AIRWAYS

joins the swing to

### Allison Turbo-Prop Engines

and Aeroproducts Propellers—

to bring you over-400-mile-an-hour luxury travel  
in Lockheed Electras

Airlines are going Turbo-Prop in a big way!

Now Braniff International Airways is moving into the jet era—with its purchase of new Lockheed Electras, and has specified Allison Turbo-Prop Engines and Aeroproducts Propellers to power these new luxury airliners.

This matched engine-propeller team is the most advanced aircraft power plant of its type available today. It is backed by the full technical resources and skills of General Motors, plus Allison's experience in building gas turbine engines which have accumulated more than 8 million hours' flight time in military aircraft.

The new luxurious Allison-powered Lockheed Electras will cruise at over 400 miles an hour, bringing jet-age performance on

both non-stop and multi-stop operations between the major traffic centers on Braniff's domestic and international routes.

From its beginning, with one airplane flying between Tulsa and Oklahoma City 28 years ago, Braniff has pioneered many achievements in air travel and has grown step by step with the continuing advances in commercial aviation.

Braniff's current investment program in new aircraft reflects the confidence this great carrier has in the further and rapid growth of air traffic.

We are happy that this great new General Motors Turbo-Prop power development has received such enthusiastic acceptance by airlines. We congratulate Braniff International Airways on this important step in the never-ending progress of air travel.

Braniff airliners powered  
by Allison Turbo-Prop  
will give you...

**FASTER FLIGHTS** than any commercial airliner now flying—cruising speeds of over 400 miles an hour

**SMOOTHER TAKE-OFFS**—and from airports now served only by smaller aircraft

**HIGHER CRUISING ALTITUDE** for greater latitude in selecting favorable flying conditions

**NEW COMFORT AND CONVENIENCE**—unprecedented new standards of smoothness and quiet in air travel

**HIGHEST DEPENDABILITY**—proved by Allison's record of more than 8 million hours of jet engine flight time

## U. S. Air Force

### Passengers In Europe Assured Coverage

Insurance against injury or death will be available beginning this month to passengers traveling U. S. Air Forces in Europe's Air Logistics Service routes.

The added protection will be available at all ALS terminals for both military and non-military passengers traveling on orders for as little as \$2 or as much as \$10.

For the \$2 policy a passenger will be covered for \$12,500 and \$625 for medical care. The \$10 plan insures him for \$62,500 and \$3,125 for medical expenses.

The insurance will cover passengers holding authorized travel orders against death or injuries received anywhere in the world as long as the policy is in effect while riding in, boarding or alighting from any transport type aircraft operated by the Air Logistics Service.

Policies issued for Air Logistics Service routes are also good on MATS flights. It was pointed out that a passenger could fly from Dhahran, Saudi Arabia, to the United States, using both ALS and MATS aircraft, and the policy would be valid for the entire trip.

## Busy Hamilton Is Hq. For Both CONAD's Western Force and ConAC's 4th AF

HAMILTON AFB  
CALIFORNIA

**TWO** major defense commands maintain headquarters at this air force base in "marvelous" Marin County within commuting distance of San Francisco.

One is the vital Joint Western Air Defense Force commanded by Maj. Gen. Roy H. Lynn, USAF. Under its purview come units of the Army, Navy, Marine Corps and Air Force, as well as thousands of civilians, charged with the protection of more than one-half million square miles from air attack. Western Air Defense Force, the air component of JWADF, also operates from this base.

The other major command here is that of the Continental Air Command's 4th Air Force which directs the activities of more than 47,000 officers and airmen of the Air Reserve and Air National Guard over an area of more than 863,000 square miles. It is commanded by Maj. Gen. Robert B. Landry, USAF, formerly Air Aide to President Truman.

**THE JOINT WESTERN AIR DEFENSE FORCE** has under its operational control:

The 6th Antiaircraft Regional Command, Naval Forces of Western Continental Air Defense Force, and such augmentation forces of the Army, Navy, Marines and Air Force, including Reserve and National Guard components, as are made available for air defenses in a national emergency.

It also works closely with the volunteer Ground Observer Corps, the Civil Aeronautics Administration, the Federal Civil Defense Administration, the Federal Communications Commission, and the Civil Air Patrol.

Maj. Gen. Lynn

**GENERAL LYNN'S DEPUTY** in this joint command, as well as for the Western Air Defense Force, is Brig. Gen. Edwin L. Tucker, USAF. Maj. Gen. Hobart Hewett, USA, Commanding General of the Sixth Antiaircraft Regional Command, is the Army representative, and Capt. John G. Howell, USN, Commander of Naval Forces, WCAAF, represents the Navy at the Joint Headquarters.

JWADF is one of the four major components of CONAD under the overall command of Lt. Gen. Earle E. Partridge, USAF, with headquarters at Ent AFB, Colorado Springs, Colo.

From this headquarters General Lynn exercises command of four Air Divisions:

9th Air Division commanded by Brig. Gen. Sam W. Agee, USAF, at Geiger Field, Spokane, Wash.

25th Air Division commanded by Brig. Gen. Romulus W. Puryear, USAF, at McChord AFB, Tacoma, Wash.

27th Air Division commanded by Brig. Gen. James W. Andrew, USAF, at Norton AFB, San Bernardino, Calif., and

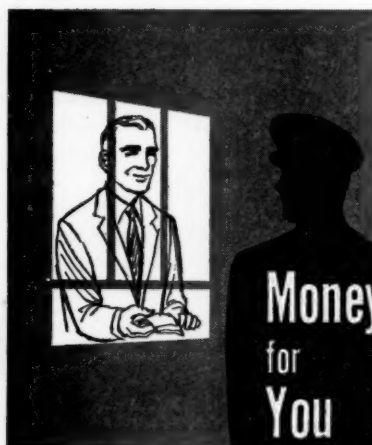

28th Air Division commanded by Brig. Gen. Monro MacCloskey, USAF, here at Hamilton.

Last December a squadron of Navy land-based F3D Douglas "Sky Knights" was added to JWADF. This squadron is stationed at North Island, near San Diego, and is under operational control of the 27th Joint Air Defense Division.

**NAVY PICKET SHIPS** extend the surveillance capabilities of the land-based radar and Ground Observer posts. Some of these already are on regular observation stations approximately 200 miles from the Western coast.

This surveillance capability will be extended still farther to sea as radar-loaded EC-121 aircraft, specially equipped version of the Lockheed "Constellation," go on station. The airborne early warning aircraft are under direct operational control of JWADF while actually on station, but are maintained and flown by the 8th Air Division commanded by Brig. Gen. Kenneth H. Gibson, USAF, at McClellan AFB, Calif.

**THE ARMY AAA COMMAND** provides rings of defense against enemy aircraft missed by fighter aircraft. Battalions of NIKES, first operational ground to air guided missiles, are installed around heavily populated and industrial areas. Skysweeper and other AA guns also are operated by the Army for use against low or medium altitude bombers.

**THE FOURTH AIR FORCE**, under General Landry, is composed of approximately 35,000 Air Force Reservists, 9,246 Air National Guardsmen, and about 2,322 officers and airmen of the active Air Force, and 698 civilians.

Maj. Gen. Landry

Air Reserve flying training units under the jurisdiction of the Fourth Air Force are located at Long Beach, Calif.; Hamilton AFB, and Portland, Ore. These centers train and support: the 452d Tactical Reconnaissance Wing and the 77th Air Depot Wing at Long Beach; the 349th Fighter Bomber Wing here at Hamilton; and the 403d Troop Carrier Wing at Portland.

In addition, three detachments have been established in the past year. At Paine AFB, Wash., Detachment No. 1 of the 2343d Air Reserve Flying Center was activated in April 1955. The 2346th ARFC at Hamilton activated two detachments last October: Detachment No. 1 at Hill AFB, Utah, and Detachment No. 2 at McClellan AFB, Calif.

#### OTHER MAJOR PROCUREMENT—

New obligational authority for other major procurement and production, which includes such items as materials handling equipment, construction equipment, railroad equipment and special training equipment, amounts to \$265 million compared with \$132 million in FY '56. Expenditures for this group of items are estimated at \$288 million compared with \$265 million this year.

**AIR NATIONAL GUARD** units in the eight Western states are under the jurisdiction of the state governors, but Fourth Air Force supervises and assists in their training and inspects the units.

Fourth Air Force works with various commands of the Air Force. For example, the 349th Fighter Bomber Wing, stationed here, joined with the Air De-

fense Command last Summer in a mock defense of the San Francisco Bay area. The "Golden Gate Wing" won high approval from CONAD officers, earning a "Well Done."

At the same time the 403d Troop Carrier Wing went from its home base at Portland International Airport to Ardmore, Okla., serving two weeks as part of the Tactical Air Command's 18th Air Force.

The 452d Tactical Bombardment Wing at Long Beach trained at its home base under operations directed by the Strategic Air Command, while the 77th Air Depot Wing trained with the Air Materiel Command at Norton AFB, Calif.

Some 300 members of the Aviation

Writers Association, who visited here recently, heard Maj. Gen. William E. Hall, USAF, Assistant Chief of Staff for Reserve Forces, discuss the necessity of achieving "wider public understanding and acceptance of the Reserve Forces' requirements (see page 8 THE JOURNAL of 9 June 56).

After their tour of the Base and its multiple activities the writers left with a conviction that Hamilton with its many and varied contacts with civilians throughout the western states is contributing immeasurably to public understanding not only of the reserves but of the Air Force and National Defense as a whole.

#### Col. Cochran Is Chief

Col. James C. Cochran, USAF, who has been assigned to the Office of the Inspector General at Headquarters, Air Materiel Command since February 1956, has become chief of AMC's Operations and Services Division.

He replaces Col. Edward F. Stoddard, USAF, who will go to Rome Air Force Depot, as Deputy Commander for Support and Base Commander of Griffiss AFB, N. Y.

In the same division, AMC, Col. Wirt Corrie, USAF, has arrived from France as Deputy for Operations.

## MATS Boeing YC-97J Operations Demonstrate High Performance of Propeller Type now in Production for Giant Douglas C-133A Transports

A USAF Boeing YC-97J turboprop aircraft, in operation with the 1700th Air Transport Group of the Military Air Transport Service (MATS), has set new records over both the Atlantic and Pacific Oceans—in tests that proved the precision control, smooth operation and long haul dependability of Curtiss-Wright Turboelectric propellers. In similar testing, the same MATS squadron kept two YC-97Js flying for a total of 46 hours, 35 minutes in a 24-hour period.

The high performance of Turboelectrics — the propellers specified for the giant USAF Douglas C-133A turboprop transports and for the major U.S. turboprop engines — is a result of precision control of engine speed and fuel reserves, through positive pitch change and close synchronization.

Turboelectrics have been proven by 37,000 hours of test and flight on high speed, long range turboprop aircraft . . . performance which is in turn backed by millions of hours on such aircraft as the B-36, using Curtiss Electro-Mechanical Propellers which embody many of the same design principles.

**"A Basic Requirement."** Congress, which for so many years held back on family housing, has now come around almost to an about face. The House Appropriations Committee, for example, now cautions the Defense Department that it "must devote greater effort" to getting housing built for Service families.

"While the Services cannot provide all the benefits entailed in private employment," the usually hard-boiled committee states, "reasonable living conditions, a basic requirement, can and should be provided."

The Committee, doing its part, has, as reported elsewhere in this issue, approved \$80 million for family housing in the States and \$150 million in the hitherto neglected areas overseas.

During the great war expansion housing dropped by the wayside. Later when Congress at last became aware of the terrific need it passed the Wherry Act guaranteeing the mortgages of private builders who collected rents from Service families. That proved far too costly both to the government and to the individual. Next the Capehart Act provided a much better deal, the Government assuming the mortgage and assigning families to the quarters in lieu of rental allowances. Both the Government and the individual saves money. Of course, straight government housing would be more economical for the Government, and, fortunately, there is growing sentiment in Congress for a return to that system.

Meantime, the Capehart Act is threatened by the failure of the House Rules Committee to grant right-of-way to an extension of the law, which expires next September. It is not the Service housing the committee objects to, but those portions of the bill referring to civilian housing. Without this extension the whole future of the present Service housing program will be jeopardized. We urge the Committee to act promptly to straighten out this situation.

**Seed For Future Defense.** The most important lesson learned from the visit of General Nathan F. Twining, USAF, and his party to Soviet Russia is that the future of our National Security depends heavily upon how willing we are to spend ever increasing amounts of money on research and development.

All of General Twining's carefully prepared public summary of his presentation to the Senate Armed Services Committee merits careful reading by everyone in the Armed Services. That is why we publish its full text in this issue. But the nub of his report comes at the end. The Air Force Chief of Staff observes that the rate of progress and improvement in Soviet air weapons "is such as to give us cause for serious thought about the future." Significantly he points out that "we must in prudence reckon on the possibility of their achieving a scientific breakthrough and consequent technological surprise in new weapons."

For the present, General Twining says, we have not lost our lead as regards relative quality of aircraft. But, he emphasizes, "we must protect this qualitative lead by a continuing heavy investment in research and development. I am convinced that our present spending on research and development is not only fully justified, but that increases in this area are warranted."

Thus, despite the political implications, Congress was wise in boosting by some \$100,000,000 the amount of money in the 1957 appropriation bill for Air Force research and development. Air Force Secretary Donald A. Quarles, with his vast background in research, looks forward to putting this money to good use in carrying forward projects which show good promise. We hope that he

**SATURDAY, 14 JULY 1956**

will not be thwarted in this program by an administrative freeze of these funds.

The Army, too, with its highly specialized need for aircraft fitting its own particular requirements for observation, liaison, reconnaissance, cargo, etc., has, as shown in the article on page 11 of this issue, a vast field of possibilities before it. New areas are just beginning to be explored, which, if fully developed, can add immense power, flexibility and mobility to our small ground forces. These include such fields as vertical takeoff, short takeoff, tilting and slotted

## READERS' VIEWS

(Letters to the Editor must have author's name and address, but name will be omitted on publication if writer so states. Longer letters may be extracted for publication.)

### "Forgiven" Payments

Editor, THE JOURNAL:

If Armed Service personnel are second class citizens, then Army personnel must be fourth class citizens.

On page 8 of the 2 June JOURNAL there is a block headed "Ask BAQ Forgiveness for AF Women." The first sentence of the article reads "The Pentagon has asked Congress to let 1800 female officers of the Air Force keep a half-million dollars which they received erroneously." Later in the article it is stated: "The Air Force says it wasn't the fault of the ladies: 'They accepted in good faith payments made by finance officers who were also acting in accordance with the AF regulations in effect at the time,' and repayment will result in hardships which 'will cause a serious morale problem.'"

During the first session of the present Congress, the Air Force sponsored a bill, which was passed and signed by the President, to forgive station allowance paid for service in Alaska under Air Force regulations, and subsequently ruled invalid by the Comptroller General. A few Army and Navy personnel did profit by this.

The Army has a similar situation in regard to the Trieste station allowance but did the "Pentagon" sponsor legislation to forgive payments which the Comptroller General ruled invalid? NO! The "Pentagon" blocked such action. A warrant officer was paid approximately \$1800.00 by a finance officer who was acting in good faith and in accordance with regulations in effect. I was paid \$83.00 and other officers and men drew varying amounts. The

Warrant Officer asked his Congressman for help. This Member of Congress, who is known far and wide as a careful guardian of public funds, looked into the case and decided that it was right to sponsor legislation to relieve the Warrant Officer and others of the pecuniary responsibility. The Congressman introduced the necessary legislation and the bill was referred to a subcommittee of the House Judiciary Committee.

The Army was asked for details as to how much money was involved. The Army replied that no action should be taken pending settlement of a suit in The Court of Claims. The suit in The Court of Claims does not involve money paid for which the government demands reimbursement but involves money authorized by regulations but not paid. It is not the same money. Only a few people are litigants in the Court of Claims and these few do not include the Warrant Officer. The Court of Claims is deliberate and a suit usually takes several years even if all goes according to schedule. Meanwhile the Warrant Officer is repaying and I am sure this is a hardship on him and his family. I understand he is licking his wounds in Korea.

Perhaps some publicity in your "Readers Views" would be helpful in bringing this situation to the notice of the appropriate people.

LT. COLONEL

### Retired Employment

Editor, THE JOURNAL:

It doesn't look like there will be much of a chance this year for the legislation which would liberalize employment of retired officers in Government jobs. However, it is re-

wings, capable of giving the Army mobility and eyes far beyond what it now has.

Yet the Department of Defense has allotted the Army a million and a quarter dollars less for aviation research and development for fiscal 1957 than it had last year. As Senator Symington points out, the \$12,500,000 now set aside for Army aviation R&D is only one and a half times the cost of a modern long-range bomber. The Army is asking the Bureau of the Budget and the Defense Department to increase these funds by \$14,800,000 to bring them up to their programmed \$27,200,000. We hope this will be granted.

There are times when Congress and the executive departments look askance at R&D funds. Nothing comes out this year to show the voters. But such money is really seed money, for from it comes the advancements upon which our future defenses are based. Today's weapons will be of little value tomorrow—and this is doubly true now that we have General Twining's confirmation of the speed of Russia's progress.

## IN THE JOURNAL

**10 Years Ago**—The Secretary of the Navy has acceded to the views of the War Department and agreed upon revision of the enlisted men's retirement bill which will drop all provision for 16-year transfers to the Fleet Reserve for Navy and Marine Corps enlisted men or 16-year retirements for the Army.

**50 Years Ago**—Manila dispatches of July 10 state that Montalon, one of the most notorious ladrone chiefs in the Island of Luzon, has surrendered to Col. Harry H. Bandholtz, USA, Assistant Chief of the Philippine Constabulary. Brig. Gen. Henry T. Allen, USA, Chief of the Philippine Constabulary, has announced that all ladrone outlaws taken by capture or surrender must stand trial in the civil courts.

**90 Years Ago**—As no house is complete without a mortgage, so, as we have learned, no Nation is complete without a National debt; as we have one at last, proper National pride demands that we should have one that is beyond all question commensurate with our National greatness.

assuring at least to see that the Administration thinks something should be done about it.

I guess we can hope for a bill to be sent to the next session of Congress.

Patience is really nothing new to those of us who have felt for a long time that a change is needed. After all, some of the discriminatory legislation, as you have pointed out in editorials and stories, dates back to 1894.

Like the politicians say, "It's time for a change."

COL., USAF-RET.

### "Truly Outstanding" Procedure

Editor, THE JOURNAL:

There are bound to be some gripes when the selections are announced and not all of the hopefuls are included on the lists but I am convinced the Army has done the right thing in providing for "truly outstanding" promotions.

The last time that was tried the whole deal got into troubles because recommendations had to be made from the field. Anyone should have seen that different commanders would have different ideas. The new method solves that problem.

I wonder if the Army is going to announce all the "truly outstanding" selections at one time, as was done before, or will they dribble out with monthly announcements. I for one hope that the selections are announced all at once. That seems to me the way to do it in order to cut down the suspense and also to assure everyone that there can be no changing the lists once the selections are made.

A HOPEFUL MAJOR.

## Army Aviation Seeks Faster, More Powerful Planes; Asks Added R&D Funds

THE Army's own integral organic aviation, which Service leaders consider "by far one of the most important things we have," is aiming toward greater numbers and vastly superior equipment.

**FIRST STEP,** just getting underway, is a quest for more adequate funds for research and development for Army aviation.

Last fiscal year \$13,775,000 was allocated for Army R&D although \$18,875,000 was sought. This year Army R&D programmed \$27,200,000 for aviation but the Defense Department only allocated \$12,500,000—a million and a quarter less than was granted last year.

Now, with the signing of the 1957 bill by President Eisenhower, the Army is shaping up its case to persuade the Defense Department and the Bureau of the Budget to allocate the \$14,800,000 additional they need to carry out the program.

Among some of the projects the Army wants to initiate or carry forward are:

**A THREE TO FIVE-TON** fixed wing cargo carrier "to provide a more efficient airlift in that weight category than is possible by the helicopters." (A "feasibility study" already is underway but cannot be carried any further because of the Memorandum of Understanding with the Air Force which limits Army planes to maximum of 5,000-pound empty with fixed wing aircraft.)

**A NEW HIGH PERFORMANCE** observation plane. The Army seeks a plane capable of 250 knots (about 288 mph) while still able to slow down to less than 100 knots. The higher speed is sought not to outrun enemy aircraft but to make a shallow penetration over enemy territory and get back out of the most dangerous area. "We expect improved enemy countermeasures to be available against our aircraft, and therefore an improved performance should offset it."

**AN EFFICIENT MEANS** of air mobility for land reconnaissance, similar to the SkyCav outfit tested at Exercise Sage Brush last Fall after a row with the Air Force over its use. The idea has been restudied and plans are now underway to organize a new SkyCav unit to try out at Exercise Sledge Hammer next February and March at Ft. Polk, La. (The Army insists that "this reconnaissance is in no sense 'tactical reconnaissance' as the Air Force uses that term, and neither are these forces airborne forces at all.")

**NEW AND MORE POWERFUL AIRCRAFT ENGINES.** The Army, conjunction with the Air Force, is developing one of 800-horse power and another of 1,500 horsepower for specific application to Army aircraft, both fixed wing and helicopter. "These are turbine engines, which will burn any type of fuel, of great advantage to the Army."

**IMPROVED LOGISTIC SUPPORT.** "Finally, we are looking hard toward a reduction of the logistic support required of our aircraft, by a simpler design, better maintenance procedures, better replacement procedures, and a longer life of component parts. We look to great progress in that; at least, we need the progress, and we hope we will get it."

Most of the above was outlined to the Symington Airpower Subcommittee by Army leaders, including Lt. Gen. James M. Gavin, USA, Chief of Research and Development, and Maj. Gen. Hamilton

H. Howze, USA, Director of Army Aviation.

Their presentation appeared to gain much support among Committee members. At one point the Chairman, Senator Stuart Symington (D-Mo), discussing Army aviation as the "eyes for the Army," declared:

**"THIS WAS VERIFIED IN KOREA.** If we had had efficient eyes, we would not have suffered that defeat in North Korea. . . . We would have had much less chance of suffering defeat if we had known something about those Chinese divisions before they hit us."

General Gavin agreed thoroughly with the Senator's statement and added:

"I have felt strongly the lack of adequate reconnaissance of a discriminating sort, something that instead of moving very high and very fast and hope to see it, something that could move very slow and occupy key terrain features and keep things under observation and then move back with information when you needed it."

Senator Henry M. Jackson (D-Wash) also commented, "If we are going to have an atomic Army the Army has to have the means of exploiting the full value of the atom, offensively and defensively. . . . That is why I think it is so important that the Army have adequate funds to carry out its research and development program, and when they have reached sufficient maturity in their research, then they ought to be in a position to get those new means of moving troops in the large battlefield area just as rapidly as possible. Otherwise we are not utilizing our funds to full value to capitalize on the limited number of ground troops we have."

**THROUGHOUT THEIR PRESENTATION** the Army generals made it clear that they do not want to encroach on the Air Force's sphere of activities, what they want is for their own specific use. At one point Senator Symington spoke of the Marine Corps having its own tactical aviation and asked General Gavin if the Army wanted that. General Gavin replied in the negative.

General Howze pointed out that Army wants to be able to move its combat units by air within the combat zone. "The field army's own organic capability," he said "should include lift for the movement of its reserves, and the shift or relocation of units as the tactical situation might dictate."

### SOVIET

**PROGRESS** in aircraft similar to that desired by our Army was also discussed. It was brought out that the Russians have a large helicopter called the "Horse" capable of carrying 5 tons or between 40 and 45 soldiers about 100 miles. Apparently they have substantial numbers of them.

General Howze compared it with our H-16 built by the Vertol company in Philadelphia. However, the H-16 can carry only about 30 soldiers over that distance. Moreover, we only built two H-16s and one of those was lost and we do not plan to build any more. The H-16 was dropped, it was said, because of its high cost and because the Army believes it can gain by developing vertical take off and short take off types of aircraft to do the same work.

"We studied carefully the very dynamic situation that exists now in the short takeoff, vertical takeoff field," General Gavin said, "with many new types of propulsion and aerodynamic

lifting means, such as: tilt wings, deflected slipstreams, boundary layer control, and many other things that are coming along.

"It appears to us that for the dollars invested we will get more. We have asked for more dollars for aviation research and development by our request for 14 million additional dollars."

In the meantime the Army, like the Air Force, has decided to investigate progress abroad with a possible view to making use of European advances in aviation. A team recently went to Europe and toured many of the aircraft manufactures and research institutions.

Members of that team were: Col. John W. Norton and Maj. William Brabson, representing Research and Development; Lt. Col. David Cogswell of the Army Aviation School; Lt. Col. Alex Rankin, of CONARC Board No. 6; and Lt. Col. Thomas Haynes, of the office of the Chief of Transportation.

They are now back in the States and preparing their report. They have seen many interesting developments and, if the Army can get the money, there is a strong likelihood that some of them will be utilized in furthering the Army's aviation program.

## Army Air Arm Gets Big Building Boost; Rucker Work Alone Totals \$7.3 Million

The Army's growing air arm is slated for a \$14.8 million building program.

Most of the new construction—detailed in the Military Public Works bill now at the White House and for which appropriations are nearing Congressional approval—will assist the Army in the development of two new missions: aviation depot support and primary pilot training. Both functions recently were transferred to the Army from the Air Force.

The biggest slice of the program—\$7.3 million—goes to the Army Aviation Center, Ft. Rucker, Ala. Plans for Rucker include "a very modern heliport," the Army said, as well as a new administration building for the Army Aviation Board, new maintenance hangars, flight instruction buildings, washing areas, roads, a new operations and control tower, and numerous other improvements.

Ft. George G. Meade, Md., also comes in for a large share of the building program. At Meade, the Army will construct a new runway, taxiway and apron, maintenance hangar and shop, control tower, operations and administration building, power and heat plant, new airfield lighting and facilities, and complete utilities for the Army air field in a new location on the base. The Meade program will cost \$1.8 million.

The next biggest amount—\$1.28 million—goes to the Fort Worth General Depot, Tex., where a new hangar with shop, runway, taxiways and aprons will be constructed. The Army also plans to acquire 73 additional acres of land at the Depot and will build new roads, parking and a security fence.

**COL. WILLIAM R. SHULER, USA,** Chief of the Army's Construction Division, said the appropriation for the Army Aviation expansion program "is by far the largest amount we have ever had in an annual program."

In testimony released by the House Appropriations Committee, Colonel Shuler said the Army air arm has received "more than an across-the-board share" of the overall Army construction program. "In a few short years," he said, "we have alleviated, or intend to alleviate, their entire deficit in facilities. We gave Army Aviation extra attention last year, and we are going to do the same next year."

One of the Committee members, Representative Daniel J. Flood (R-Pa), suggested that Army Aviation should be given everything it needs "so that we will have an Army air arm a little faster and better than anyone thought we were going to get it."

He said the Army air arm should receive more attention than the other branches of the Army and "should get more than its share for a few years."

**IN ADDITION TO THE BUILDING PROGRAMS** at Rucker, Ft. Meade and Fort Worth, funds also are provided for \$600,000 hangars at the New Cumberland General Depot, Pa., the Sharpe General Depot, Calif., and Fort Huachuca, Ariz.

The Atlanta General Depot, Ga., will get \$832,000 for a hangar with shop, taxi-

ways and aprons and a runway.

Davison Field at Fort Belvoir, Va., is slated to receive \$279,000, including \$174,000 for a light cargo helicopter company hangar to provide adequate shelter and safety protection for six H-21 and one H-13 type helicopters. A new flight training building will be constructed to house two classrooms and link trainers for instrument instruction and aviation weather indoctrination for Army pilots stationed in Washington and dependent on Belvoir for operational and proficiency training. The Belvoir plans also include \$65,000 for runway lighting to provide for training of Army pilots in night operations.

At Ft. Eustis, Va., \$559,000 will be spent to build a hangar with shops for field maintenance of 33 fixed-wing aircraft. By fiscal '58, the Army plans to have fixed wing aircraft at Eustis worth \$24 million and rotary wing craft worth \$18 million.

**OUTSIDE THE U.S.** two areas also will receive part of the building funds. At Ladd AFB in Alaska, the Army will spend \$757,000 on an Army Aviation hangar and facilities to provide maintenance, heated storage, administration and supply facilities for one H-13E helicopter, one L-120 and five L-19s.

At Camp Passalacqua, Italy, the Army will build a \$72,000 hangar to provide space for maintenance and repair of liaison and carrier aircraft units assigned to this area.

Primary training for Army cargo helicopter pilots will be moved from Fort Rucker to Wolters AFB, Tex., and combined with all the rest of the primary training for helicopters.

## Ft. Carson Air Section Expands In First Year

The Army air section at Ft. Carson, Colo., headed by Lt. Col. Charles E. Lawrence, USA, recently marked its first anniversary at its Mesa air strip site, located south of the main post.

The past year the fast-growing air section has seen completion of a huge Butler-type hangar, extension of electric lines and addition of several small buildings.

Also, contracts were let recently for construction of a sewage system at Mesa, valued at \$7,711; the building of a runway lighting setup, \$12,694, and construction of an aviation gasoline storage and dispensing system, \$35,525.

A new water line costing \$37,314 also was purchased recently.

The air strip soon will have its first tower to help direct air traffic on post.

## AIRLIFT FOR ARMY

For long range deployment and for moving major Army forces and supplies over long distances, even within the same theater, the ground forces must depend on the Air Force.

How the Army fares for tactical and strategic airlift will be the subject of another "Journal" article in next week's issue.

Lt. Gen. Gavin

Maj. Gen. Howze

# memo

NOT MANY ARMY GENERALS have had more people looking over their shoulders than Maj. Gen. Thomas L. Sherburne, USA, who heads the experimental 101st Airborne Division soon to be activated at Ft. Campbell, Ky. In addition to frequent visits and inspections from top Army officials, the 101st will be half-year host to a special Test Director Headquarters, headed by Brig. Gen. Roy E. Lindquist, USA. The Test Headquarters will report to Lt. Gen. Thomas F. Hickey, USA, Third Army Commander at Ft. McPherson, Ga. THE 101st AIRBORNE should be watched carefully; if it succeeds, the Army will have a strengthened case in support of its contention that newly designed formations can resist atomic attack successfully and retaliate effectively. But it's also true that the 101st, with a strength of about 12,000 men instead of 17,000 in the two other airborne divisions, points the way to the economical possibility of maintaining present division strength (19) with a significant reduction in manpower. WHAT IF THE ATOMIC DIVISION test should be a flop? Army leaders don't want even to consider that possibility. They feel certain that General Sherburne and his associates—each man virtually hand-picked down through the NCO ranks—will blaze a new path in ground warfare; ultimate consequences on Army manpower and budget ceilings are cited as problems far outside of the 101st's responsibilities.

THE CHAMBER OF COMMERCE has declared that pay of top Federal executives is "altogether too low" in comparison with private industry. The influential group wants a pay raise for high echelon civilians; it's a good bet the Chamber will also endorse a Pentagon plan to raise the pay of many generals and admirals.

THE HOUSE ARMED SERVICES COMMITTEE readily agreed to the Senate action in adding additional bases to the military public works program for dispersal of B-52 units. The House group tacked on two more bases—one in Georgia and one in Missouri. COMMITTEE CHAIRMAN is Rep. Carl Vinson (D-Ga.); ranking minority member is Rep. Dewey Short (R-Mo.).

A CONGRESSIONAL-WISE ARMY general soon will be named Deputy to Assistant Secretary of Defense Robert T. Ross (Legislative and Public Affairs). The officer, Brig. Gen. Clarence J. Hauck, USA, currently is serving as Chief of Army Legislative Liaison. Capitol sources said General Hauck will be assigned to help Defense Secretary Charles E. Wilson improve his relations with Congress.

THE ARMY HAS SPOKEN OUT in support of a military pay raise. It used the same forum that was employed so vigorously by the Air Force, the Senate Airpower inquiry. The Army told the Symington Subcommittee that it supports the Air Force's proposals—revised pay, adequate housing, medical care, better commissary and PX service, and educational rights. THE ARMY'S NEED for technicians and leaders is pointed up with the disclosure that there is a shortage of 16,000 NCO's in combat units, including 1200 guided missile electricians; there are shortages in 80 Army specialties. During the past 4 years, the Army has trained 3700 radar repairmen; the retention rate among first enlistees is 0.5 of 1 per cent. THIS MEANS OF COURSE that the Army and all the other Services are running a huge training program for industry.

—2—

SOME ENLISTED MEN in the Washington area now are allowed to wear civilian clothes to duty—and they need not be attired as "executives," as is required for officers. The Coast Guard has quietly let it be known that EM at Headquarters may show up in civilian garb, and it's even permissible to wear open-necked sport shirts, provided that the shirts are of a single color. ENLISTED MEN in the other Services must wear the uniform, although there is some talk that the optional choice may be extended to all ranks.

THE ARMY'S SENSITIVITY over the fact that the Navy controls a considerable part of its aviation research and development program was reflected in the fact that the Defense Department this week announced a contract award for a Helicopter Flight Simulator. DoD said Army R&D funds will be used, but added that administration of the contract is under the Office of Naval Research. IN THE PAST, the Navy has announced such contracts. An example: the Navy was given nationwide publicity last year for the Hiller Helicopter "flying platform," which is an Army project sponsored with Army funds.

THE ARMY CHIEF OF ORDNANCE billet apparently is being upgraded, with the approval of President Eisenhower. Maj. Gen. Emerson L. Cummings, USA, has been named for higher rank in that post, where he has served since November 1953. Last three-star Chief of Ordnance was Lt. Gen. Levin H. Campbell, jr., USA-Ret., who left the Army in May 1946. THE PRESIDENT ALSO O.K.'d three-star status for Maj. Gen. Francis W. Farrell, who is the Joint Chief of Staff's liaison officer with the National Security Council.

THE CORDINER COMMITTEE will recommend that Service Academy graduates be required to serve more than the current three-year tour, though additional compensation is seen likely for an extended obligation. DEFENSE OFFICIALS are concerned because unusually high percentages of Academy graduates are resigning after fulfilling their basic requirement.

A CAPITOL-WHITE HOUSE WRANGLE may develop over the appointment of a new Navy Judge Advocate General. President Eisenhower, as predicted, (The Journal 23 June) named Capt. Chester C. Ward, USN, for the top legal job. The Senate Armed Services Committee will want to know why the current Acting JAG, RADM. William R. Scheeley, USN, was not given the post. THE POINT WILL BE MADE that Admiral Scheeley is the only law specialist in Navy history selected for flag rank; this was done by a board which passed over Captain Ward, also a legal specialist. WELL KNOWN AMONG CONGRESSMEN, Admiral Scheeley was seen the likely choice for the job; some Armed Service Committee members were upset when he was by-passed. These legislators now argue that Captain Ward, if confirmed, would receive a spot promotion to the flag rank which the selection board refused him. THERE IS SOME SUSPICION in the Committees, that the Navy waited until late in the session to submit the nomination, since a new assignment for RADM. Iran H. Nunn, USN, was reported some weeks before a successor was announced. DON'T BE SURPRISED if the Senate Committee holds a special hearing on the JAG nomination.

Your Staff

## U. S. ARMY ORDERS

Wilber M. Brucker—Secretary of the Army  
Charles G. Finucane—Under Secretary of the Army  
Hugh M. Milton, II—Assistant Secretary (Manpower & Reserve Forces)  
George H. Roderick—Assistant Secretary (Civil-Military Affairs)  
Frank H. Higgins—Assistant Secretary (Logistics)  
Chester B. Davis—Assistant Secretary (Financial Management)  
William H. Martin—Director, Research and Development  
General Maxwell D. Taylor—Chief of Staff

Cobb, Capt J F McGowan, 2d Lt B J

To Korea

Coates, Capt Robert B, Indiantown Gap, Pa.

the F-104A

goes steady  
with Lear

The faster-than-thought speed of the Lockheed F-104A Starfighter has been made practicable by the automatic flight control system designed and produced by Lear in collaboration with Lockheed engineers. By damping out undesired oscillations in all axes more quickly than they can even register in a pilot's brain, Lear's 3-axis stability augmenter provides an ease of control comparable to a basic jet trainer.

Lear Inc.  
Santa Monica, California

Pichichero, Capt Larry J, Broughton, Pa.  
Denham, Capt John P, North Charleston, SC.  
Finlayson, Capt Robert V, Killen, Tex.

Br USDB (2232-2) New Cumberland Gen  
Dep, Pa.

—Continued on next page

Courtesy and resourcefulness qualify her for the job. Gaye Evans, telephone company Service Representative, obtains information for a customer regarding his telephone service.

PHOTOGRAPHS BY ANSEL ADAMS

## She Likes to Help People

A story about one of the telephone Service Representatives whose "voice has the smile" whenever there's anything you'd like to know about telephone service.

One of the nice things about the telephone business is the way it brings us close to people.

Many, many times each day—in your community and in countless communities throughout the land—we have the opportunity and the privilege of friendly contacts with those we serve. Sometimes they are by telephone. Very often they are personal visits.

Among those who have these contacts are Business Office Service Representatives like Gaye (Mrs. Robert) Evans.

"What we like people to do," says Gaye, "is to think of us as their personal representatives at the telephone company. Whenever there's any question

about service or a bill or you're moving or needing more service, we're here to help in every way we can."

Gaye Evans' job takes a special type of person. One who is not only efficient but understanding as well.

Gaye qualifies in many ways. Even in her leisure hours, she finds time to help others, especially the handicapped and the needy. Another of her activities is rehearsing a 26-girl choir.

Gaye sums up one of her main satisfactions this way: "It's nice to have people think of the telephone company as a place where they can always find courtesy and consideration. That's our job and we try to be good at it."

**Helping the Blind.** Raising money to provide "Guide Dogs for the Blind" has been one of Mrs. Evans' activities in the Venture Club—an organization of Oakland (Calif.) business women.

## STEPPING OUT...INTO SPACE!

In the eerie light on the threshold of space an Air Force technician "bails out" of a gondola — *seventeen miles up!* His rate of descent will reach 450 miles an hour before he reaches thicker air where he can safely open his chute. On the ground far below, highly trained specialists are checking a maze of electronic equipment that will record every phase of this operation. It is important that key men involved in

such experimental projects be moved to new assignments without delay. That's why they're flown by the speedy, dependable Scheduled Airlines. Next time you're moving one man or many, call your Scheduled Airlines representative — let him show you how to save transportation money and keep your men **ON THE JOB . . . not "on the way."**

**10% DISCOUNT for official travel on TR's.**

### Now you can **Save By Mail**

CONVENIENT . . . SAFE

**3 1/2% CURRENT DIVIDEND**

Your funds insured safe to \$10,000 by agency of the Federal Government.

Savings accounts anywhere in U.S. or foreign countries opened and serviced by mail. We furnish special mailing envelopes which carry both deposit and withdrawal forms. Particular attention given to accounts of Armed Forces personnel.

Allotment check can be credited directly to your individual or joint (husband or wife) account. If desired, passbook held in our vault for safe-keeping until requested.

Write SERVICE Dept. today for details and signature card.

ASSETS OVER \$24,000,000

## SCHOOL AND CAMP DIRECTORY

The Schools and Camps listed below are effectively equipped to care for the educational and recreational needs of the children of members of the services and this Directory is recognized as an authentic and reliable aid to service parents in solving the problem of child education. For details as to the Schools listed in this Directory address them directly or communicate with the Army Navy Air Force Journal Dept. of Education, 1711 Conn. Ave., Washington 9, D. C.

### CALIFORNIA

#### MT. LOWE MILITARY ACADEMY BOYS 8-14

• Expert Supervision  
• Accredited Academic Training  
• Jr. Military Training, Cadet Unit Approved by State  
• Adjutant General  
• Athletic & Recreational Activities  
\$85 Per Month  
300 W. Palm St. Altadena, Calif. SY 4-5079  
Det. A Maj. J. H. Dargin, President

### DIST. OF COLUMBIA

#### Sullivan School

Effective and thorough preparation for West Point, Annapolis, Air Force and Coast Guard Academies, and all colleges. Catalog and record sheets with names and percentages showing our unparalleled success may be had on request. Fall course begins September 17. Wendell E. Bailey, USNA '34, Principal. Box J, 2107 Wyoming Ave., N. W., Washington 9, D. C.

### COLUMBIAN

"The Service-Academy Prep"  
Intensive, individualized preparation for West Point, Annapolis, Air Force Academy, etc., and all civilian colleges. How-to-study training. 12-year record (1944-56) full-time students:  
99% entered academies and colleges  
97.5% passed academy examinations  
95% won academy appointments  
Fall Session begins September 10  
Box A, 1811 Biltmore St., N. W., Washington 9, D. C.

### GEORGIA

#### GEORGIA MILITARY ACADEMY

8 miles from Atlanta—Winter and summer school. R.O.T.C.—Highest government rating. Accredited. Prepares for all colleges and the national academies. Separate Junior School, first through seventh grades, limited to 100 boarding cadets. Post-graduate course. # Let Freedom Ring!

From the moment the *spirit of '76* was born with the *shot heard 'round the world* and proclaimed with the ringing of the Liberty Bell... sounds have played a vital part in our American freedom!

Today, the freedom of every man, woman and child of this nation is inseparably linked with another sound—the protective roar of great new jet aircraft like Convair's delta-wing supersonic F-102A all-weather interceptor.

The modern minutemen of the U.S.A.F. Air Defense Command who fly these jet aircraft for your protection never relax their vigil. *Let Freedom Ring!*

## Roots-Connorsville creates stop-and-go whirlwinds for aircraft research

Man-made air masses that match the violence of nature's hurricanes pour from the Roots-Connorsville Blowers at the Lewis Flight Propulsion Laboratory of the National Advisory Committee for Aeronautics. Yet the power of these huge wind-making machines can be instantly controlled, from a soft, whispering breeze to a roaring, whirling cyclone. In the reverse, the siphoning air movement can develop almost perfect vacuums to simulate the air conditions of high altitudes. A similar but larger N.A.C.A. "wind-making system" is now being completed at Langley Field, Virginia.

The same engineering and manufacturing abilities that developed these stop-and-go whirlwinds are applied by Roots-Connorsville to the everyday movement of gas and air, in small or large quantities, for industry. Now in its second century of service, Roots-Connorsville Blower Divi-

sion, one of the Dresser Industries, designs and builds the world's most extensive and varied line of such equipment.

### Teamwork...that serves the world!

In its specialized field, each Dresser company, operating independently, has the experience, facilities and engineering manpower to meet the progressive needs of the industries it serves. Whenever an unusually challenging problem is put before any Dresser operating unit, the vast research, engineering and production facilities of all divisions of Dresser Industries, Inc. can be swiftly mobilized into effective teamwork. Throughout the oil, gas, chemical, electronic and other industries, this coordinated performance is known as the Dresser Plus+...a standard of comparison the world over. Briefacts gives the complete story of the Dresser Plus+. Write for your copy today.

Tomorrow's progress planned today

Scott, Robert G, 2d MAW, to Mar Bks Nav Sta, SFRan.  
Starek, Robert H, 1st Mar Div, to MCB, Campen.  
Coggins, Jerry D, 1st MarBrig, to MCAS Kaneohe.  
From MCS, Quant, to Station Indicated  
Seal, Cecil O, OrdScol, Aberdeen PG, Aber-deen, Md.  
Barker, Hunter C, HqMC.  
Slagle, John W, MarCorComp NavADGru, Korea.  
Fortin, Victor G, MarCorSupCen, Albany.  
Harter, Robert H, 3d MarDiv.  
To 1st Mar Div (Reinf) FMF, Campen:  
Holmes, Page H, Meissinger, John E  
Lindemuth, D L

### 1st LIEUTENANTS

Bowen, Donald P, Kingsville, Tex, to 2d MAW.  
Hall, Howard H, Pncia, to MarBks NAVACT NGF, Wash, DC.  
Martin, James V, jr, AirFMFPac, to MarTD MartC NAS, Olathe, Kans.  
Dentler, Paul J, Pncia, to MarCorFWDAn-nex, Ptsmh, Va.  
Richardson, Harrison L, jr, USS Oriskany, to MarBks, NavSta, SFRan.  
Haskins, Francis W, FMFPac, to MCB, Cam-Lej.  
MacNulty, William D, MAG 31, to MCS Quant.  
Roberts, Richard T, 1st ANGLICO, to Arty&GM Scol, Ft Sill, Okla.  
Thurber, William M, 1st ANGLICO, to 2d Mar Div.  
Shore, Bruce J, USS Tarawa, to 2d Mar Div.  
Wilkinson, Billy G, AirFMFPac, to MCS Quant.

From 1st Mar Div, to Station Indicated  
Riordan, Edward J, 2d MAW, AirFMFLant, CherPt.

Ward, Charles, MarBks NavSta TI SFRan.  
Ingram, Samuel W, to MarCorSupFWDAn-nex, SFRan.  
Parker, William H, 3d MarCorClothDep, Philadelphia.  
Holmes, Henry A, MCS Quant.  
Ringle, Jack K, MarCorSupCen, Albany.  
Roos, Donald A, MCB, CamLej.  
Slepicka, Alois A, MCB, CamLej.  
Cornish, John F, jr, MarBks NavB, Boston.  
Holles, David V, 2d Mar Div.

From MCS, Quantico, to Station Indicated  
Fauver, Ronald E, FMFPac.  
Arnold, John D P, jr, Hq MC.  
Lewis, Kenneth E, 3d Mar Div.  
Brandes, Norman J, MCB, CamLej.

To 2d MarDiv:  
Bain, Robert A, Cain, Thomas L

Jensen, Arthur E  
To ForTrps, FMFLant:  
Clark, Fred E, jr, McDonnell, G F E  
Haislip, Richard E

To MarCorTraCen, 20 Palms:

Bowen, Dale J, jr, Fridell, John R

### To FMFLant:

Caldwell, H H, jr, Garner, William D  
To 1st Mar Div (Reinf) FMF, Campen:  
Cummings, John M, MacDonald, Glenn A  
Goodman, Edward C

To MarCorCruitDep, SDiego:  
Cheripka, Michael R, Gutknecht, John E  
Gallagher, Patrick K, Redelfs, John E  
Grumm, Jimmie D

### To 2d MAW, Cherry Pt, NC

From Pencia, Fla:  
Grafton, Richard W, Vezzani, Daniel L  
Marz, Franklin P, 3d Williams, Clifton C

### To MCAS KANEHOE

From 1st MarBrig:  
Bartlett, Stephen W, Padilla, Salvatore F  
Fline, James T, Smith, James R

### 2d LIEUTENANT

Woody, Larry D, 2d MAW, to MCS, Quan-tico.  
Barfield, Douglas B, 1st Mar Div, to NPF Indian Head, Md.  
Gillis, Harry G, jr, 2d MAW, to MarTD MartTC, NAS, Olathe, Kans.  
Campbell, Robert L, 1st Mar Brig, to MCAS, Kaneohe.  
Jennings, James D, 1st Mar Brig, to MCAS, Kaneohe.  
Burgdorf, Harold A, PNCLA, to 2d MAW.  
Lutes, Morris W, Pncia, to 2d MAW.  
Parker, William K, CorpC, Tex, to 2d MAW.  
Robbins, Arlington B, Kingsville, Tex, to AirFMFPac.

From MCS, Quantico, to Station Indicated  
Bevins, Douglas B, AirFMFPac.  
Taylor, Charles W, AirFMFPac.  
McCarthy, Donald J, 2d MAW, Cherry Point, NC.

### CHIEF WARRANT OFFICER

McChesney, W-3 Douglas W, 2d Mar Div, to MCRD PI SC.

### WARRANT OFFICER

Vismont, Joseph V, 2d Mar Div, to NPF, Indian Head, Md.  
Griffin, Clair E, MCB, Campen, to The Armored Scol, Ft Knox, Ky.

### RETIRED

Bird, Brig Gen Samuel K, HqMC, to temp disab ret list.  
Simpson, Capt Walter L, 2d MAW, to ret list.  
Campbell, Capt John H, ForTrps FMFPac, to ret list.

## Navy Lists Junior Officers

The Navy has listed the names of junior unrestricted officers in permanent and temporary grades, USN, as of 1 July, who have been commissioned in, or have become due for promotion to the listed ranks, under terms of the OPA of 1947.

GRADE	PERMANENT	TEMPORARY
	Line	
RAdm.	Albert E. Jarrell	David L. McDonald
Capt.	James D. Babb	Frank L. Fullaway
CDR.	Guy M. Thompson, jr.	A. F. Borysiewicz
LCdr.	John E. Cousins	Jimmie C. Jones
LT.	William W. Lee, jr.	Russell B. McWey
	Medical	
RAdm.	Thomas F. Cooper	Thomas G. Hays
Capt.	Arthur L. Lawler	Eugene E. Sloss
CDR.	Gale G. Clark	Lloyd F. Miller
LCdr.	James P. Semmens	Reiland E. Greenburg
LT.	Joseph T. Horgan	Mario A. Vasquez
	Supply	
RAdm.	H. C. Haynsworth, jr.	John W. Crumacker
Capt.	Harold E. Cole	Chauncey C. Williams
CDR.	Thomas C. Mason	Geo. M. Clifford, jr.
LCdr.	Eugene I. Murray	John M. O. Jones
LT.	M. E. Kreyenhagen	John E. Sandrock
	Chaplain	
RAdm.	Edward B. Harp, jr.	Edward B. Harp, jr.
Capt.	Emil F. Redman	Brie H. Arendt
CDR.	Emmett T. Michaels	George B. Thomas
LCdr.	Arthur L. Dornay	Robert C. McMillan
LT.	Edwin S. Jones	Owen A. Hardage, jr.
	Civil Engineer	
RAdm.	William Shihler	Wallace B. Short
Capt.	William C. G. Church	Ralph C. Jensen
CDR.	Anthony B. Carrelli	Tom W. Beck
LCdr.	Wm. C. Anderson, jr.	James B. Julian
LT.	Leslie C. Guthrie, jr.	Andrew G. Sutherland
	Dental	
RAdm.	Ralph W. Malone	Ralph W. Taylor
Capt.	Kenneth L. Urban	Wall B. Chesterfield
CDR.	Melvin B. Leonard	Thomas J. Hanson
LCdr.	David V. Castner, jr.	Louis H. Cordorier
LT.	Walter N. Johnson	Lowell E. Slagle
	Medical Service	
Capt.	John J. Engelfried	John J. Engelfried
CDR.	Joseph J. Glawson	Robert S. Leopold
LCdr.	Chester D. Moss	David H. Baker
LT.	Howard F. Noble, jr.	Weldon G. Browne, jr.
	Nurse	
CDR.	C. Edwin Todd	Mary J. Lindner
LCdr.	Lucille H. Vosgerau	Dorothy E. Jones
LT.	Helen Roller	Evelyn M. Demarco

## New Army Majors

The cutoff date of rank for promotions to temporary major was advanced to 27 September 1950 through 120 months service with the promotion of 116 line officers in S.O. 136, effective 9 July.

Also promoted in that S.O. were 20 MC and DC captains.

S.O. 136 also announced the promotions of three MSC officers to lieutenant colonel—Robert I. Jetland, Henry C. Read and Frederick B. St. John; also Samuel Damashek, MC, and Robert H. Marlette, DC.

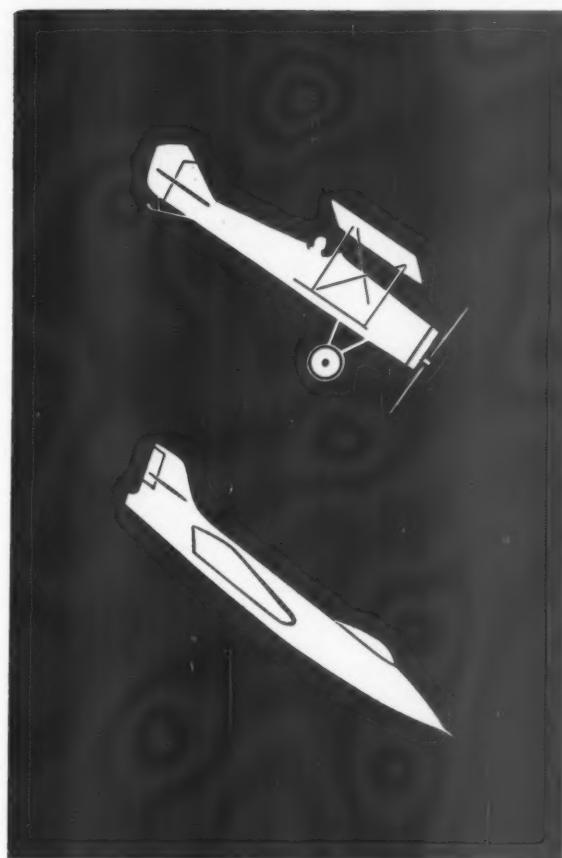

Army Navy Air Force Journal 23  
14 July 1956 (Vol. 93, P. 1447)

## OK Army Generals, Colonels

The Senate has confirmed the appointment of Maj. Gen. Gilman C. Mudgett, USA, CG of the 6th Infantry Division, Ft. Ord, Calif., for permanent two-star rank.

Also confirmed were 26 permanent colonels for permanent brigadier general (THE JOURNAL, 23 June), 11 brigadier generals for temporary major general and 23 colonels for temporary brigadier general (THE JOURNAL, 30 June).

Three hundred eighty-five Regular Army officers also were confirmed for permanent colonel (THE JOURNAL, 30 June).

**YES,  
THERE'S A  
BIG  
DIFFERENCE**

WASHINGTON, D.C. LITTLE ROCK SAN DIEGO SAN FRANCISCO SAN ANTONIO HONOLULU, T. H.

**SPECIALIZED EXPERIENCE.** For strongest lifetime protection, GPM serves the military and the navy with the singleness of purpose only a specialist can claim. **LONG SERVICE.** For more than 22 years, GPM has specialized in the needs of servicemen. Experience is the best test of stability and long range protection. **INTEGRITY.** GPM is an old-line, legal reserve, mutually owned life insurance company, founded by military men to serve the highly specialized needs of the service. For more than 22 years our company has served those needs with integrity that goes beyond provisions of our contracts. More than \$135,000,000 insurance in force. Recommended by Best and other leading insurance rating authorities.

## Gen. Twining Gets Two "Good Looks" at Russian Planes, Sees Four New Types

### From first page—

present position of Soviet airpower, and also give us more insight into its potential during the years ahead.

• It would provide a test as to whether any advantage would accrue to the United States in entering upon a program of reciprocal visits between Soviet military delegations and our own.

**ACCOMPANYING ME** were the following officers:

Lt. Gen. Frank F. Everest, Deputy Chief of Staff for Operations.

Lt. Gen. Donald L. Putt, Deputy Chief of Staff for Development.

Lt. Gen. Thomas S. Power, Commander, Air Research and Development Command.

Lt. Gen. Clarence S. Irvine, Deputy Chief of Staff for Materiel.

Maj. Gen. Albert Boyd, Deputy Commander, Air Research and Development Command.

Brig. Gen. William H. Blanchard, Deputy Director of Operations, Strategic Air Command.

Col. Thomas W. Wolfe, USAF Air Attache Designate to the Soviet Union. Colonel Wolfe served as an interpreter for the group.

Because my day-to-day activities in the Soviet Union were extensively reported in the American press, I shall not burden you with a travelogue of my eight-day tour.

Rather, I shall concentrate on our more important observations concerning those segments of the Soviet air effort that were disclosed to us. My comments will principally cover the aircraft we saw, the two production plants and the two air training establishments that were opened to us, as well as certain helpful bits of information we were able to piece together from conversations with Soviet leaders, scanty as these were.

**FIRST, THE AIRCRAFT** that were displayed:

We had only two good looks at their planes—once during the big air show at Tushino airfield and again at Kubinka airfield, where we were shown sixteen aircraft parked for ground display.

At Tushino they brought out many of the operational aircraft types already known to us. In this air show, however, we saw several modified and presumably improved versions of these aircraft, as well as four new types. These new types were a turbo-prop assault transport somewhat similar to our Fairchild C-123 and three experimental fighters having some features of Delta-wing design.

Except for a few aircraft which put on a display of aerobatics, the air procession made only one sweep past the reviewing stands at about 400 feet altitude and at a distance varying from one quarter to three quarters of a mile. The weather was poor; rain fell intermittently during the exhibition; and a relatively low ceiling prevented the organizers of the show from going through with a promised demonstration of a sonic "boom." In spite of these handicaps, the show was well-timed and the quality of airmanship was good.

**AN INTERESTING** and somewhat unexpected aspect of this particular show was the stressing of defensive, rather than long-range offensive types. For instance, the largest formations were composed of defensive fighters of the FARMER and FLASHLIGHT categories. By contrast, they brought out only seven heavy long-range bombers. Three of these were BISON heavy jets and four were turbo-prop heavy bombers of the class known to us as BEAR. On previous occasions the Soviets have paraded larger numbers of both types.

Among the sixteen aircraft chosen for ground display at Kubinka airfield were most of the types that had appeared in the Tushino flypast. This time, however, they left out the new assault transport that I have mentioned, and the three Delta-wing fighters. But, there were now included three types that had not appeared in the air parade. One of these was a new twin-engine light jet bomber of clean aerodynamic design; the Soviet briefing officer described it as supersonic. Another was a twin-engine ground-attack jet bomber said to have protective armor plating. The third new type was a turbo-prop naval torpedo bomber curi-

ously hung with a variety of external gadgets and armament.

Neither we nor the other visiting air delegations (of which there were 28) were invited to enter these aircraft nor to move really close to them. The exhibits were lined up, wing-tip to wing-tip, on an inactive runway. We were taken past them in a motor procession at a distance of about twenty-five yards and at a speed of about five miles an hour. This gave us time for only a quick look at each one.

**THERE WAS ONE DEVIATION** from this procedure. General Everest and I were riding somewhat behind the main group. As we crossed in front of the TU-104 jet transport, Marshal of Aviation Rudenko, who was our escort, ordered his driver to stop. On his invitation to inspect the interior, we got out of the car and climbed aboard for a look around. There is no mystery about this particular transport. It has earlier been exposed to close Western observation at London and Geneva.

Altogether, in the displays at Tushino and Kubinka we counted ten aircraft that either had not been publicly displayed before or which represented modifications of previously identified designs. Among the latter we recognized an altered version of the latest operational fighter in the well-known MIG series, the MIG-19 FARMER. There were also two revised models of the Soviet all-weather fighter FLASHLIGHT. The Soviet designation of this aircraft is the YAK-25.

**OF THE NEW AIRCRAFT** brought into public view on these two occasions, the most important, in the judgment of my party, was the twin-jet and allegedly supersonic light bomber now designated by us as the BLOWLAMP.

This aircraft appears to be the replacement for the IL-28 (BEAGLE). You will doubtless recall from my earlier testimony before this Committee that Soviet production of the IL-28 is estimated in the thousands; and while it is now being phased out of Soviet combat units, it is being added to the forces of other nations of the Communist Bloc.

The Kubinka excursion also yielded an example of a hook-up for aerial refueling. Between the wing tips of two BADGER jet medium bombers on the ground extended a 50 foot length of four-inch hose. This bore little resemblance to any of the devices that we ourselves have developed.

It was obvious that the Soviet air leaders are giving a good deal of thought to the air refueling problem. A Soviet air general (Ponomarev) informed us that the Russian Air Force is working on what he described as two different approaches—a flexible system, and a so-called "rigid" system.

From the remarks of various Soviet air officers we gained the distinct impression that they are wide-awake to the advantages of aerial refueling; in fact, they cited figures on the range extension made possible by this technique. It is, of course, obvious that an in-flight refueling capability would be an essential Soviet objective, and we have no doubt that they are taking full advantage of advances that are being made in this field.

**OVERALL, THE KUBINKA** display was interesting not only for what it showed, but equally for what it failed to show. Completely missing from the array of exhibits were any guided missiles, even of the most elementary kind.

There is, of course, ample evidence that the Russians have such missiles. But I must report that throughout our stay in the USSR our hosts maintained a veil of secrecy around their activities in this field of weapons and could not be drawn into serious technical conversations about them.

Limited and controlled as were the displays at Tushino and Kubinka, they were further informative because they gave us our first fairly close view of a number of aircraft which previously had been seen only at a distance. These included the BISON jet heavy bomber, the BEAR turbo-prop heavy bomber, the BADGER jet medium bomber, and the FARMER and FLASHLIGHT fighters.

**A FINAL EVALUATION** of the quality and performance of these aircraft has not yet been made. In the meantime, however, several comments seem valid:

(1) On the basis of the aircraft we saw or were told about, the Soviet Air Force is engaged in the development of a surprisingly wide variety of aircraft.

(2) It was the judgment of my group that the designed configuration of most of these aircraft reflected a high level of scientific and engineering talent. They were proof that Soviet designers are now pioneering on their own in the field of modern aircraft development.

(3) It was further our judgment, at least on the basis of the aircraft shown us, that despite the undeniable strides made by Soviet designers, they have not outdistanced us. Nothing we saw could honestly be described as being superior to the best U. S. aircraft in comparable categories. In saying this, I must note, however, that in certain areas—notably the development of a turbo-prop type of bomber—they have made a large effort in a direction that, for reasons of our own, we did not choose to take.

(4) The three experimental Delta-wing fighters shown at Tushino appeared to us to need still further test and development before they can be put into serious production. It was also our general conclusion that in the latest operational types as well Soviet designers are having trouble in achieving stability at high speeds. This was evidenced, among other things, by their extensive use of wing "fences" and foils to adjust the stream of air over wing and control surfaces.

(5) Nevertheless, despite the absence of some engineering and design refinements familiar to us, the widening variety of aircraft already in the Soviet operational and experimental inventories is clear evidence of a broad understanding of the state of the aeronautical art and of Soviet determination to advance therein on a very wide front.

**I SHALL NOW REPORT** on what we saw of the industrial side of Soviet aviation. On the fifth day of our visit my group was taken to two factories—first to an aircraft engine facility (Plant #45), and then to an airframe assembly facility (Plant #30), both in the Moscow area. As it turned out, the engine factory is the oldest now producing in the USSR and the assembly plant is turning out a standard-type of transport. For us to be taken to these somewhat outmoded production sources after being shown some of the latest Soviet products seemed to us strangely inconsistent. This was mentioned to Tupolev, the Soviet Union's leading aircraft designer. His reply was, "You have to keep something in your pocket, you know."

At the engine plant we were given a view of all the important stages in the manufacture of a centrifugal flow jet engine that had been adapted by the Soviet designer Klimov from the British NENE. This particular engine, though no longer found in their latest aircraft, is still being used to power the IL-28 bomber (BEAGLE), the MIG-15 (FAGOT), as well as the MIG-17 (FRESCO). Considerable numbers of these aircraft still remain in the Soviet combat inventory.

However, our look at even this relatively obsolescent engine was worthwhile for the reason that it enabled us to see the engineering processes used by the Soviets to get the maximum power potential from an engine of Western design. We saw also how they had applied a power-adding afterburner to this particular model.

**SEVERAL POINTS ABOUT THIS FACTORY** were extremely interesting to us. From our guides we learned that about 1948 it had been converted from the manufacture of agricultural machinery to jet engine production. They also said that during what they called the War—by which I presume they meant the Korean War—this one plant produced more than 10,000 VK-1 (NENE-type) engines for the MIG-15. This high output of quality engines was achieved in spite of "job shop" production methods and, by our standards, fairly simple tooling.

When we were there, the plant's VK-1

line appeared to be operating at about 15 per cent of capacity; however, we were given to understand that the plant is to be retrofitted for the manufacture of turbo-prop engines. Worker discipline, the production scheduling and the quality of output impressed my people as being good. We were told that over 20 per cent of the 3,000 workers on the engine line had been employed in the plant more than ten years.

The airplane assembly plant that we saw was producing a twin-engine transport, the IL-14. In configuration and performance this airplane is about midway between our DC-3 and Convair.

Although our guides claimed this source was putting out two IL-14's a day, our own judgment was that the true daily rate was closer to one. In any case, there were indications of a tapering-off in the operation, and we were informed by a production official that the plant is to be converted to the manufacture of Tupolev's four-engine, turbo-prop transport, the TU-114.

We were told that the work force totaled 5,000. The experience level seemed high; the production scheduling looked good, as did the quality of the product, despite the high proportion of handwork.

This aircraft plant produces under its own roof some 85% of the airframe, whereas in the U. S. assembly plants the figure is about 60%. We concluded that owing to such factors as lack of automation and of high-production tooling and presses, the production per man hour is considerably less than that achieved in the U. S.

**THREE THINGS ABOUT SOVIET PRODUCTION** methods caught the eyes of my people. First, the assembly jigs were light and simple. In contrast with the American practice of employing forgings or extrusions, welded sections were used for landing gear and similar structures. Second, curved sections were fabricated from sheet aluminum on simple hand-operated light hammers, while more difficult sections were formed by air-activated, hydraulic stretch processes managed by simple hand control. Third, the wing and fuselage sections were built up by the riveting together of smaller parts, as is done with the British Canberra.

The housekeeping practices of both the engine and airframe assembly plants were definitely below United States standards. While there was an absence, at least in these plants, of the huge presses and other high volume automatic gear that are commonplace in our industry, this condition should not be taken to mean that they are backward in the new industrial processes or in their appreciation of the higher labor productivity possible with such equipment.

The two plants which they deliberately chose to show us are among the oldest in the Soviet aircraft industry and are not representative of the more modern production facilities that since have been added. Still, there is good reason to believe, even on the basis of these two examples, that the Soviets possess in high degree the ability to apply mass production processes and techniques to the manufacture of airframes and jet engines.

**THAT THE SOVIETS CHOSE** to take us to a plant devoted to the output of transport aircraft, rather than to one making combat aircraft, seemed to us an action deliberately designed to reinforce their frequently reiterated theme of being more interested in building transports than bombers. In this connection, it is worthy to note that Soviet officials made a big point of the claim that they were already operating the TU-104 jet transport (Camel) over regularly scheduled routes.

In both the engine and assembly plants we were told that one-third of the current effort is devoted to the production of agricultural implements. We saw none of this work, although it may have been going on in other parts of the plants into which we were not invited. I must also add that neither tour was calculated to allow us to add importantly to our knowledge of the work that the USSR is carry-

## Day at Zhukovskii Academy "Most Illuminating" of Visit; Training Equipment Good

ing on in the manufacture of engines and airframes for more advanced combat aircraft.

**TURNING NOW TO THE TRAINING SIDE** of the Soviet air establishment, I will note by way of preface that we had looked forward especially to this part of our schedule.

The final itinerary given us just before starting out from Washington listed visits to two types of higher training institutions, one dealing with tactical and operational matters, and the other with technical and engineering studies. The famous Zhukovskii Air Engineering Academy in Moscow, founded in 1918 at Lenin's direction was nominated by our hosts as an example of the latter field of specialization, and the Monino Air Academy, also in Moscow, was chosen for the former. Being well aware of the very rapid rate of progress made by the Russians in the air sciences and technologies, we were hopeful of gaining from a study of these academies an even deeper insight into their air thinking than could probably be elicited from a passing view of their heavily screened production and design activities.

In some respects, the day we spent at the Zhukovskii Academy was the most illuminating single facet of the entire visit. The student body is drawn directly from the officer ranks of the Soviet Air Force; and in standpoint of physical size and the breadth and depth of its curriculum this Academy is unique among the world's professional military institutions. The course last five years; the student enrollment, we were informed, is 2,500. The age-range for entrance is 24-32 years and candidates are required to have at least five years of prior service with the Air Force and the rank of 1st Lieutenant to Major.

**SEVERAL THINGS ABOUT THIS ENGINEERING ACADEMY** impressed us. One was the obviously good quality of the instructors. In their brief discussions with us they showed they knew their business. Another interesting point was the fact that the Soviet Air Force is able to spare so many promising officers for so long a period.

A third thing that impressed us was the equipment available for training. It was very good; there was a lot of it, and it was varied. My technical experts were surprised that the Soviet Air Force possessed the resources to put so much specialized equipment at the disposal of a training institution. They had an unusually fine collection of laboratory cameras for very high-speed photography, and their metallurgy department would compare favorably with the highest United States standards.

To my group the most unexpected of the advanced facilities encountered—again, in an institution of this kind—were the wind tunnels. A Mach 3 wind tunnel was actually demonstrated to us. The aircraft model used was a true Delta design. From the shock waves produced when it was subjected to the ultra-sonic airstream it was clear that this tunnel was a bona fide Mach 3 testing device.

**IT WAS SOMETHING OF AN EYE-OPENER** to find such a machine in a military training institution. We also noted in the wind tunnel laboratory a variety of Delta test models. These advanced models indicated that Soviet research studies are reaching beyond the limits suggested by the intermediate Delta prototypes flown at Tushino. There was another wind tunnel at this school which the Russians said could produce Mach 5 conditions. This was not put into operation.

By comparison with these ultramodern features, the electronic department was anything but revealing in terms of the work they may be doing in this important field. Such school equipment as was shown to us clearly belonged to an earlier stage of Soviet electronic development. For the most part, it appeared to have been copied from the West.

In another department of the Zhukovskii Academy we came upon several cut-away versions of earlier versions of Soviet axial-flow jet engines.

These were naturally of interest to us. Engines of the axial-flow type represent, as you know, a more advanced stage in the engine art than do those of the centrifugal-flow type, such as the one we earlier saw in production at Plant No. 45. Our brief inspection of this school exhibit was as close as we ever came to Soviet work in the axial-flow engine field. Although the prevailing direction of Soviet engine development for their latest operational aircraft lies clearly in the axial-flow field, we saw nothing of this work.

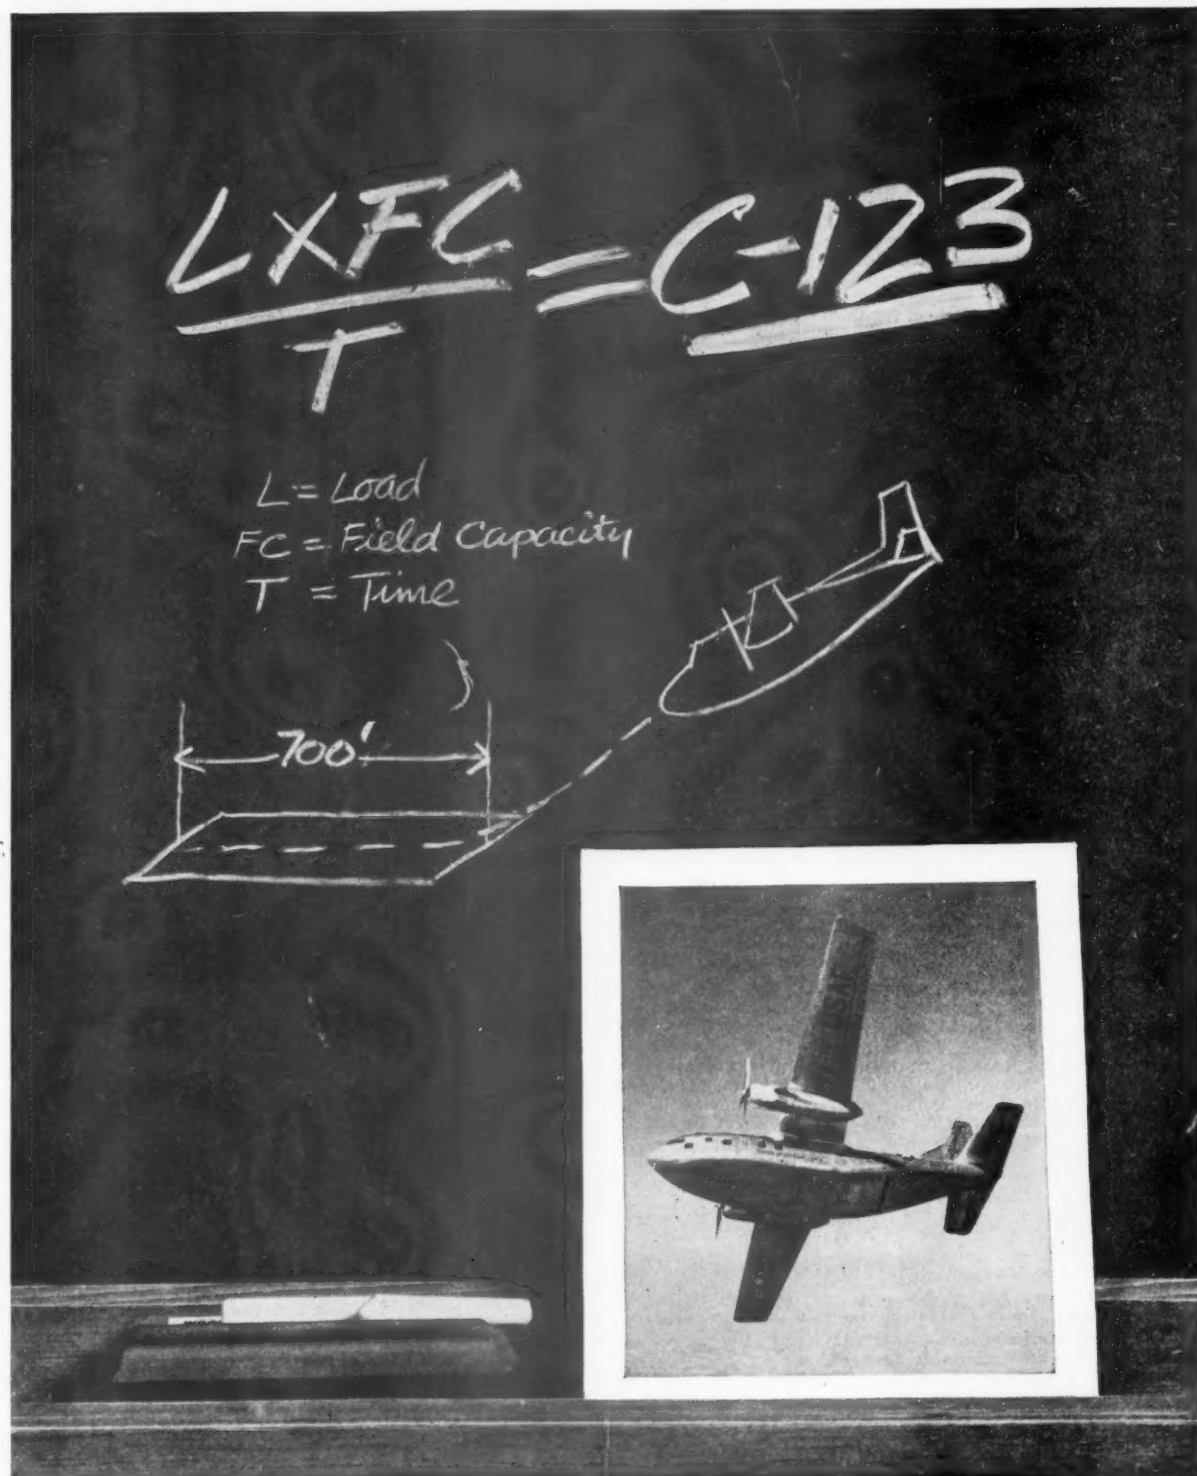

**HOWEVER, THE DESIGNER TUPELEV** disclosed to us in conversation that their BISON heavy bomber is equipped with axial-flow engines. From what we know about big bombers, we were sure that the BISON's engines are larger and more powerful than any that were on display at the Academy.

This completes my observations on our day's tour of the Zhukovskii Academy where the Soviet Air Force trains its most promising talent in the air sciences and engineering. I should add, parenthetically, that this academy is but one

of an extensive network of institutions, both within and outside the Soviet Air Force itself, in which scientists and technicians are either being trained or are carrying on research activities in support of the Soviet air effort.

Our exposure to the Soviet air training establishment was concluded with a visit to a second institution where young officers are given advanced schooling in the operations, tactics and doctrines of air warfare. This is done at the Monino Air Academy. Here the student-candidates

—Continued on page 35

**Battle Situation:** 10 105mm howitzers, with ammunition and gun crews, plus 10 bulldozers and operators must be delivered to an enemy-surrounded field.  
**Field conditions:** Ungraded field, sandy and eroded; 1000 ft. at its widest dimension. Assume 15 mph velocity wind. Troops must be ground landed.  
**Solution:** Load 20 Fairchild C-123

assault transports at supply center 450 miles away; take 3 hours to fly to destination. Land your airplanes 8 seconds apart—allow 700 ft. ground roll for each.  
**Theorem:** Fairchild C-123 rugged performance and reliability is proved daily in stateside assault and overseas logistical missions.

**FAIRCHILD**  
 AIRCRAFT DIVISION • HAGERSTOWN 10, MARYLAND  
 A Division of Fairchild Engine and Airplane Corporation

...WHERE THE FUTURE IS MEASURED IN LIGHT-YEARS!

## SERVICE FAMILY NOTES

**PARIS FRANCE.**—Three proud fathers present their sons, whom they have just sworn into the Army, to Col. Richard H. Lawson, (extreme left) Commanding Officer of Seine Area Command, where the ceremonies took place. The young men and their fathers are (left to right), John C. Cornelson, Col. A. J. Cornelson, NATO Defense College, Bruce P. Holmberg, Lt. Col. Donald W. Holmberg, SHAPE, and James W. Romlein, and Col. John W. Romlein, AFCEC.

**MRS. John R. Jones**, wife of Lt. Col. Jones, originator and organizer of the Friendship Committee at Fort Belvoir, is off with him for his new post at Toul, France. Mrs. Francis E. Crum has been chosen as the new chairman of the committee. The Friendship Committee's plan is for U. S. officers at Belvoir to "adopt" a foreign officer studying at Belvoir. For his benefit officers and families take the visitor sight-seeing, shopping and entertain him at their own quarters, acquainting him with the way Americans live and promoting friendly relationships.

Col. and Mrs. Jones are stopping off on their way to Europe, to visit Mr. and Mrs. William L. Rhodes on Long Island. The Jones children are to enter French schools in Toul.

### Army Daughters Chapter Change—

The Fort Bragg N. C. Society, Daughters of The U. S. Army, has been reorganized. The former chapter was disbanded due to war conditions. Charter members include Mesdames Weaver H. Gaines, Allen N. Goodson, Edwin S. Hartshorn, Peter A. Helfert, William H. Kinard, Stephen Nichols, John W. Paddock, Paul W. Phillips, Edson D. Raff, Robert N. Tyson, Frederick R. Weber and Vachal D. Whatley. The officers are Mrs. Frederick H. Weber, president, Mrs. Curtis J. Herrick, vice-president, Mrs. Peter A. Helfert, secretary, Frank G. Schviak, treasurer, and Mrs. Robert N. Tyson, parliamentarian.

### Class 41-G Plans Reunion—

Mr. and Mrs. Jack D. Onerem of 449 Glenridge Road, Dayton, Ohio, entertained Dayton members of USAF Class 41-G and their wives 7 July.

Plans for the next annual reunion of Class 41-G were discussed. This will be the Command Pilot Reunion (15th), and it will be held in Washington, D. C. 29 Sept. in the Capital Room, Bolling AFB Officers Club. Reservations for the reunion should be made by phone or mail with Lt. Col. Wm. M. Houston, Hq. USAF, AFOP, Washington 25, D. C.

Any members of Class 41-G in the Dayton area who are not now on the Dayton list are requested to contact Lt. Col. Tom L. Barrow at 5399 Cobb Drive, Dayton 3, Ohio, phone MADison 0106.

### Master Evans, 3d Is Christened—

Bryan Evans, 3d, son of Capt. (USA) and Mrs. Evans, jr., who was born at Walter Reed Army Hospital on 11 April, was christened in the Children's Chapel of the Washington Cathedral on 30 June. The ceremony was performed by Canon Luther D. Miller, former Army Chief of Chaplains. Godparents of the young man are Maj. Gen. and Mrs. Samuel R. Harris, jr., Capt. Robert J. Heckendorn, Dr. Stanley T. Kessel and Mrs. John J. Betz.

The baby's grandparents are Col. and Mrs. William M. Talbott of 5102 Brookview Dr., Westhaven, Md., and Col. (USA-Ret) and Mrs. Evans, Sr., of 5708 Overlea Rd., Sumner, Md. He is the great-grandson of Mrs. T. L. Taylor of San Antonio, Tex., Mrs. A. T. Wolfe of Washington, and Mrs. Grace M. Talbott

of Talahoma, Tenn. Among those attending the christening were the baby's great-uncle and aunt, Col. (USA) and Mrs. Houston Val Evans.

Colonel and Mrs. Bryan Evans, sr., entertained relatives and a few old family friends at their residence, following the event.

**HONOR THE AG** — Supposedly to commemorate the 181st anniversary of the Adjutant General's Corps, some 400 AGC officers and their ladies gathered recently at Ft. Lesley J. McNair Officers' Club to honor the Army Adjutant General, Maj. Gen. John A. Klein and Mrs. Klein. The gala affair actually turned out to be a surprise party for General Klein who marked his 60th birthday on 30 June. Pictured from left to right: Mrs. Herbert M. Jones, Major General Jones (Deputy, The Adjutant General); Mrs. John A. Klein, Major General Klein (The Adjutant General), and Maj. Gen. J. G. Van Houten (Commanding General, Military District of Washington) and Mrs. Van Houten.

### Visit From West Point—

Maj. Gen. David H. Tully and Mrs. Tully have visiting them at Fort Belvoir their son-in-law and daughter, Capt. and Mrs. Lee Surut and daughters, Louise and Christine, from West Point, where the former is a member of the faculty of the Academy. They will be here for the month of July.

General and Mrs. Tully entertained at a luncheon Friday last in honor of the Commanding General of the Second Army Lt. Gen. Edward Hart, and Mrs. Hart.

### MDW Wives' Elect—

The final meeting of the Military District of Washington Officers' Wives Club saw the following officers elected to serve for 1956-57: Honorary President, Mrs. John G. Van Houten; Advisory Counselor, Mrs. Hugh Everett, jr.; President, Mrs. Thomas H. Magness, jr.; Vice President, Mrs. James J. Carnes; Secretary, Mrs. Ralph H. Wiltamuth; Treasurer, Mrs. George W. Carter, jr.; Publicity, Mrs. Nathan M. Quinn; Program, Mrs. Howard B. Mickey; and Hospitality, Mrs. Alfred B. Jaynes.

### A. G. Ladies Will Meet—

The Adjutant General's Ladies Bridge and Canasta Club will hold its monthly bridge and luncheon meeting on Wednesday, 18 July, at Patton Hall, Ft. Myer, Va. Hostesses will be Mrs. Henry M. Rund and Mrs. Carl K. Warren.

## 26 Service Daughters Make "Dean's List"

Fredericksburg, Va.—The Dean's List for the second semester at Mary Washington College, the woman's division of the University of Virginia, contains the names of 350 young women who maintained a "B" average with no grade below a "C". The following daughters of officers in the Armed Services received scholastic recognition:

USMC—Joanna Benner, daughter of Col. K. W. Benner of Washington, D. C., a senior.

USAF—Mary Elizabeth Burnside, daughter of Maj. Gen. and Mrs. Merrill D. Burnside of WPAFB, Dayton, Ohio, a sophomore. Rosa Nell Akre, daughter of Col. and Mrs. Roland O. S. Akre of Phoebus, Va., a junior. Joan Gregory Ivanoff, daughter of Maj. and Mrs. Andrew I. Ivanoff of Arlington, Va., a junior.

USA—Helen Barden, daughter of Col. (Ret.) and Mrs. A. R. S. Barden of Bethesda, Md., a soph. Sue Carpenter, daughter of Col. and Mrs. G. R. Carpenter of Arlington, Va., a senior. Suzanne Doran, daughter of Col. and Mrs. Roy E. Doran of Carlisle Barracks, Pa., a junior. Sylvia Ann Hansen, daughter of Col. and Mrs. Harry R. Hansen of Alexandria, Va., a junior. Carol Kowalski, daughter of Col. and Mrs. Frank Kowalski of Ft. Belvoir, Va., a sophomore. Marion Hoyt Lee, daughter of Col. (Ret.) and Mrs. Ernest O. Lee of Roanoke, Va., a June graduate. (Miss Lee was on dean's list 8 semesters). Christa

Huchthausen, daughter of Chaplain (Lt. Col.) and Mrs. Walter A. Huchthausen of Chaplain School, Ft. Slocum, N. Y., a soph. Zada Taylor, daughter of Lt. Col. and Mrs. Walter A. Taylor of Arlington, Va., a sophomore. Elizabeth Yancey, daughter of Major (Ret.) and Mrs. B. A. Yancey of Warwick, Va., a June graduate.

USN—Abbie Grove, daughter of the late Cmdr. and Mrs. A. E. Grove of Newport, R. I., a senior. Katherine Roessler, daughter of Cmdr. and Mrs. B. O. Roessler of Bainbridge, Md., a sophomore. Sandra Ball, daughter of Capt. (Ret.) and Mrs. Frank H. Ball of Morehead City, N. C., a senior. Frances Bourke, daughter of Capt. and Mrs. Robert E. Bourke of Arlington, Va., a sophomore. Ellen Brown, daughter of Capt. and Mrs. B. F. Brown of Hopedale, Mass., a June graduate. Michelle Foley, daughter of Capt. and Mrs. Francis J. Foley of Long Beach, Calif., an all "A" student who was on Dean's list 8 semesters and is a June grad. Hermine Gross, daughter of Capt. and Mrs. Herman A. Gross of St. Albans, N.Y., a June grad. Marcia Kyes, daughter of Capt. and Mrs. Frank M. Kyes of Annapolis, Md., a sophomore. Ruth Morrison, daughter of Capt. and Mrs. James A. Morrison, of Bethesda, Md., a junior. Jacqueline McDaniel, daughter of Lt. and Mrs. James E. McDaniel of Portsmouth, N. H., a senior. Susan Small, daughter of Capt. and Mrs. Seldon C. Small of Alexandria, Va., a sophomore. Janet Stuart, daughter of Capt. and Mrs. W. A. Stuart of Coronado, Calif., a senior.

this year were the three daughters of ex-King Farouk of Egypt . . .

**RADM. (USN-RET.) and MRS. S. B. DUNLAP** and their daughter, **ROWAN**, have established residence at "Shady Nook," 236 Bryn Mawr Ave., Bryn Mawr, Pa., following Admiral Dunlap's retirement from active duty on 30 June. They will be joined in August by their son, **STANTON**, now on his first class midshipman's practice cruise . . .

**MISS MARY ELLEN KELLY**, daughter of **COL. (USA-RET.) and MRS. LEO F. KELLY** of 1003 Cambridge Dr., Kalamazoo, Mich., has accepted a position with the National Security Agency, Washington, D. C. She was graduated last month from Trinity College, Washington, where she majored in Spanish . . .

**CAPT. PHYLLIS M. LOUCKS, ANC**, who is now stationed at the Ft. Belvoir, Va. USAH, has written for her Master's thesis "The Training Function in Nursing Service," which has been published by the National League for Nursing and will be distributed by the League's Exchange . . .

The **REVEREND HENRY RAGLAND GOOCH**, son of **COL. (USAF-RET.) and MRS. WILL G. GOOCH**, Box 248, Skyland, N. C., was graduated from the Yale Divinity School, on 11 June, and has accepted a call to the Macon County Larger Parish, New Cambria, Mo., (Presbyterian). Mr. Gooch married the former Miss Sally Harris, daughter of Mrs. Elizabeth S. Harris of Washington, D. C., and niece of **LT. GEN. RICHARD SOUTHERLAND HARRIS, RET.**, of Coral Gables, Fla. The couple have two daughters, **KAREN** and **LAURIE** . . .

## SERVICE FOLK

**MISS SALLY E. BORK**, daughter of **BRIG. GEN. and MRS. L. S. BORK** of Quarters 9, Ft. Wayne, Mich., has recently returned to the U. S., after three years of extensive travel and schooling in Europe. For the past year, she has attended Le Grand Verger at Lausanne, Switzerland, a school limited to an enrollment of only 35 young ladies, ten of whom can be Americans. With her there

**COL. GEORGE W. PETERSON**, USAF, new commanding officer of Palm Beach Air Force Base, is given a farewell banquet at Castle Harbour Hotel, Bermuda, upon leaving his post there at Kindley AFB. (Left to right) Capt. Reginald Nickell, USAF, Manpower Officer; Lt. Col. Robert Reid, USA, Commanding Officer, 7283d Trans. Term. Det; Mrs. Nickell; Lt. Col. H. A. Wagner, USAF, Maint. Sq. Commander; Mrs. Wagner; Lt. Col. R. A. Ward, USAF, 303d ARS Commander; Mrs. Ward; Col. George W. Peterson; Lt. Gen. Joseph B. Smith, USAF, Commander of the Military Air Transport Service.

## Service Weddings and Engagements

**BRIG. Gen. (USA) and Mrs. Harry O. Paxson** of Ft. Myer, Va., have announced the engagement of their daughter, Alice, to Lt. John Bard Collins, USAF, son of RADM. (USN) and Mrs. Howard L. Collins of Long Beach, Calif.

The prospective bridegroom is a graduate of the U. S. Naval Academy.

**SWANSON-GORE**—Mr. and Mrs. Herschel C. Gore of Roanoke, Va., have announced the engagement of their daughter, Margaret Ann, to Lt. John F. Swanson, USAF, son of Mr. and Mrs. F. Ralph Swanson of Baltimore, Md.

Miss Gore is a graduate of Westhampton College, Richmond, Va.

Lieutenant Swanson, a graduate of the University of Richmond, is now assigned at Texas A&M College, where he is pursuing further studies.

**POPPER-METZEL**—The marriage of Miss Mary Ellen Cone Metzler, daughter of Mrs. Jeffrey Metzler of Washington, D. C., and the late Rear Admiral Metzler, USN-Ret, and Mr. Robert David Popper, took place on 29 June, at the U. S. Navy Chapel, Washington.

Given in marriage by her father's cousin, Mr. Truman Metzler of Winnetka, Ill., the bride wore a white taffeta gown designed with a bateau neckline and a full train. A seed pearl coronet held her fingertip veil and seed pearl earrings and pendant belonging to her maternal grandmother, Mrs. Hutchinson Ingham Cone, widow of Rear Admiral Cone, USN-Ret, completed her costume. She carried stephanotis and white orchids.

Her only attendant was her sister, Miss Martha Selden Metzler. Best man for Mr. Popper was Robert Foldenauer, and ushering were Messrs. Samuel Barrow and Robert Creveling.

A reception was held at the Naval Officers' Club, Bethesda, Md.

The bride is a graduate of Sidwell Friends School and of George Washington University, from which she was graduated last month. She is a member of the Kappa Alpha Theta sorority. Her husband, at present on active duty in the Army, plans to complete his studies for his degree in Languages next year at George Washington University.

The couple are now at Ft. Lewis, Wash., where the bridegroom is stationed.

**SCHEIN-LODMELL**—Col. (USA) and Mrs. Elmer A. Lodmell have announced the engagement of their daughter, Mary Louise, to Mr. Edgar Henry Schein, son of Prof. and Mrs. Marcel Schein of the University of Chicago.

Miss Lodmell is a graduate of Stanford University.

Mr. Schein received his Bachelor's and Master's degrees from Stanford and his PhD from Harvard University.

**SPIVEY-SMITH**—A late afternoon service at the Trinity Methodist Church, Alexandria, Va., on 23 June, united in marriage Miss Alice Lucile Smith and Lt. Donald R. Spivey. The bride is the daughter of Col. and Mrs. Lon H. Smith of 809 So. Overlook Dr., Alexandria, and Lieutenant Spivey is the son of Mr. and Mrs. J. Seth Spivey of Richmond, Va.

The vows were exchanged before an altar banked with palms, white gladioli and

stock, with Dr. John H. Blackmore performing the double ring ceremony.

Given in marriage by her father, the bride wore a gown of white silk organzine taffeta, with Chantilly lace outlining the sweetheart neckline and accenting the full skirt, which flowed into a chapel train. Her illusion fingertip veil fell from a small pillbox hat trimmed with seed pearls and iridescent sequins, and she carried a bouquet of white gladioli and stephanotis.

Miss Jo Ann Smith, sister of the bride, was maid of honor and the other attendants were Misses Jacqueline Goodman, Gail Morgan, Alice Mott and Betty Spivey, with little Miss Nancy Tuck, niece of the bridegroom, as flower girl. Mr. Joe Spivey was best man for the bridegroom, and ushers were Messrs. John Spivey, Tom Gutherie, Stewart Sell and Richard Rowlett.

Mrs. Spivey was graduated last month from the College of William and Mary, where she was president of the Delta Delta Delta sorority. Her husband was graduated from the College of William and Mary in 1955. He was president of the Pi Kappa Alpha fraternity.

Following a wedding trip, the couple will reside at Ft. Bragg, N. C., where the bridegroom is assigned to the 83d Field Artillery Battalion.

**JOHNSON-BASSETT**—Mr. and Mrs. Charles Chase Bassett of Cleveland Heights, Ohio, have announced the engagement of their daughter, Linda Beaumont, to Lt. Robert Allen Johnson, USAF, son of Mr. and Mrs. Henry B. Johnson of Shaker Heights, Ohio.

Miss Bassett, a graduate of the Laurel School, Cleveland, was graduated last month from Vassar College.

Her fiancé is a graduate of the University of Cleveland and of Yale University. He is presently stationed at Bolling AFB, D. C.

**SCALES-SMITH**—Before an altar banked with white gladioli and tapers, Miss Barbara Lee Smith, daughter of Lt. Col. and Mrs. David Custer Smith, Jr., Department of Tactics & Combined Arms, A&GMS, Ft. Sill, Okla., became the bride of Lt. David Emory Scales of the Department of Gunnery, A&GMS, son of Mrs. Raymond A. Scales of Marietta, Ohio.

Chaplain (Col.) William B. Estes performed the double ring ceremony on 10 June at the New Post Chapel, Ft. Sill. Escorted to the altar by her father, the bride wore a princess styled gown of antique satin with Chantilly lace framing the off-the-shoulder neckline and the accordion pleats of the bouffant skirt, which extended into a chapel train. Her fingertip illusion veil fell from a tiara of seed pearls and orange blossoms, and she carried a white Bible with a marker of orchids.

Following the ceremony, the couple left the Chapel under an arch of sabers, and drove to the reception at the Polo Club in the traditional Ft. Sill tally-ho drawn by white horses.

**TOWLE-HELLYER**—Mr. and Mrs. John Avery Pruyn have announced the engagement of her daughter, LaVerne Louer Hellyer, to Mr. Charles McNear Towle, son of Mrs. McNear Towle of Chicago, Ill., and Col. Stewart Warren Towle, USAF, of Washington, D. C.

Miss Hellyer, daughter of the late Mr. Frederick Hellyer, attended Masters School, Dobbs Ferry, N. Y., and Wheaton College, Norton, Mass.

Her fiancé attended Northwestern Military Academy, Lake Geneva, Wisc., and Lafayette College. He has served in the U. S. Air Force.

An August wedding is planned.

**BLOMQUIST-McCLAIN**—Col. and Mrs. Donald M. McClain, Seventh Army Headquarters, Stuttgart, Germany, announce the engagement of their daughter, Sandra, to 1st Lt. Calvin B. Blomquist of Ft. Carson, Colo., son of Mr. and Mrs. Guy Blomquist of Minneapolis, Minn.

Miss McClain attended Blair Business College, Colorado Springs, and is presently in Germany with her parents.

Her fiancé, a University of Minnesota graduate, commands the Medical Detachment of the 12th Engineer Battalion.

The wedding is planned for 12 Aug., at the Central Christian Church, Warren, Ohio, after which the young couple will return to the University of Minnesota, where Lieutenant Blomquist will do graduate work.

**DESIMONE-SCHROER**—Mr. and Mrs. James Milton Schroer have announced the engagement of their daughter, Marjorie Ann, to Lt. Thomas Edwin DeSimone, USA, son of Mrs. D. Thomas DeSimone of Providence, R. I., and the late Mr. DeSimone.

Miss Schroer is a graduate of the University of Michigan.

Lieutenant DeSimone was graduated from the U. S. Military Academy.

**BROWN-UPHAM**—The Post Chapel at Ft. Myer, Va., on the afternoon of 7 July was the scene of the marriage of Miss Harriette Anne Upham and 2d Lt. Frederic J. Brown, 3d, USA, who was graduated from the U. S. Military Academy in June. The bride is the daughter of the Assistant Deputy Chief of Staff for Military Operations, U. S. Army, Maj. Gen. and Mrs. John S. Upham, and the bridegroom is the son of the Director of Supply Operations, U. S. Army, Maj. Gen. and Mrs. Brown, jr.

Chaplain Albert M. Shoemaker performed the ceremony.

Given in marriage by her father, the bride wore a full length gown of white organzine designed with a scoop neckline edged with tiny tucks and pleats and caught with garlands of lace flowers, its bouffant skirt with lace flowers cascading down the side, ending in a chapel train. Her fingertip illusion veil was attached to a cap of organzine and lace, and she carried gardenias, lilies-of-the-valley and stephanotis.

Her matron of honor was her sister, Mrs. Loyal G. Lundegard, and bridesmaids were Misses Margaret H. Craig, Marcie G. Cross, Mary Jane Renfro and Elizabeth A. Woodward. 2d Lt. Harry W. Johnson served as best man and ushering were 2d Lts. Gerald D. Ankenbrandt, David M. Corderman, Richard H. Head, Peter W. Lash, Robert E. Quackenbush, jr., and Lewis S. Sorley, 3d, all classmates of the bridegroom.

Following the ceremony, Lieutenant Brown and his bride passed under the traditional arch of sabers to a tally-ho which took them to Patton Hall, where the reception was held.

After a wedding trip to Vermont and Canada, the couple will reside at Ft. Knox, Ky.

**PERRY-MOORE**—Miss Turza Ann Moore, daughter of Lt. Col. (AUS-Ret) and Mrs. Allen R. Moore of Glastonbury, Conn., was married on 23 June, at the Buckingham Congregational Church, Glastonbury, to Mr. A. Allison Perry, son of Mr. and Mrs. A. Perry of West Hartford, Conn.

The bride was given in marriage by her father. She wore a Swiss embroidered organza gown fashioned with a basque bodice with a portrait neckline, its bouffant skirt designed with side tiered organza terminating in a court train. Her veil of French illusion fell from a crown of orange blossoms, and she carried a cascade of Summer flowers in pinks, yellows and blues.

Mrs. A. Jackson Byrd was matron of honor and the other attendants were Mesdames Robert D. Camp, jr., and

Army Navy Air Force Journal 27  
14 July 1956 (Vol. 93, P. 1451)

James Hull. Mr. Malcolm L. Perkins of Edmundston, N. B., Canada, was best man for his cousin. Ushering were Mr. David L. Perry, brother of the bridegroom, and Mr. W. Breckenridge Moore, brother of the bride.

The bride attended American International College and is presently employed in the Technical Service Department of Pratt & Whitney Aircraft Corporation. Her bridegroom, who served in the Navy during WWII, attended William Jewell College, Liberty, Mo., and now is associated with the Connecticut General Life Insurance Company.

The couple is now residing at 1A Jai-dee Dr., East Hartford, Conn., following a honeymoon at Martha's Vineyard.

**HARRISON-GROENBOOM**—Miss Andree Kay Groenboom, daughter of Mrs. Henry P. Groenboom of Downers Grove, Ill., and the late Mr. Groenboom, became the bride of 1st Lt. Wentworth Terry Harrison, USMC, son of the Commander-in-Chief, Caribbean Command, Lt. Gen. (USA) and Mrs. William K. Harrison, jr., of Quarry Heights, C. Z., at the Village Church, Western Spring, Ill., on 15 June.

Lieutenant Harrison and his bride will reside near Camp Lejeune, N. C., where the bridegroom has recently been assigned following a tour of duty in the Far East.

**CORNAY-McGRATH**—The Chapel-in-the-Pines, Ft. Lawton, Wash., was the scene of the marriage recently of Miss Patricia Mary McGrath, daughter of Lt. Col. and Mrs. D. E. McGrath of McChord AFB, Wash., and Capt. Florian Octave Cornay, USA, son of Mr. and Mrs. Ray Cornay of Lafayette, La.

Mr. Ray Cornay, jr., served as his brother's best man and ushering were Capt. Edward L. Williams, 1st Lts. Stables W. Brooks and R. W. Adams.

Colonel and Mrs. McGrath were hosts at a reception at Officers' Club, Ft. Lawton, following the ceremony, to which the bride and bridegroom rode under a Nike guided missile mounted on a truck.

The bridegroom attended Southwestern Louisiana Institute prior to entering the U. S. Military Academy, from which he was graduated in 1950. He now commands Battery B of the 433d AAA Missile Bn. of the 26th AAA Group at Ft. Lawton.

**DYMENT-GANT**—Col. and Mrs. Robert Marion Gant announce the engagement of their daughter, Nancy Lee, to Lt. LeRoy William Dymont, jr., USA, son of Mr. and Mrs. Dymont, sr., of South Portland, Me.

Miss Gant attended Mary Washington College of the University of Virginia.

Lieutenant Dymont is a graduate of Gould Academy, Bethel, Me., and of the University of Maine. His present assignment is at PMS&T of the Joplin, Mo. High School.

**LEITCH-WIDEMAN**—Representative and Mrs. Robert Fleming Rich of Woolrich, Pa., announce the engagement of her daughter, Patricia Holmes Wideman, to Mr. Dines Langhorne Leitch, son of Mrs. William Branch Leitch of Arlington, Va., and the late Colonel Leitch, USA-Ret.

Miss Wideman, daughter of the late Mr. Frank J. Wideman of Washington, Va., attended Mt. Vernon Seminary, Pine Manor Junior College and George Washington University.

Her fiancé is a graduate of Sewanee Military Academy and Centre College, Danville, Ky.

**JONES-LINDNER**—Mr. and Mrs. Charles H. Lindner have announced the engagement of their daughter, Marguerite Bremer, to Mr. Henry MacNeven

## Weddings and Engagements

From preceding page—

Jones, son of Mrs. E. Powis Jones of New York, and the late Captain Jones, USA-Ret.

Miss Lindner attended the Berkeley School.

Her fiancé, an alumnus of St. Mark's School, served with the American Field Service attached to the Eighth Army and the 21st Army Group in WWII. He later was graduated from Harvard University. He is now associated with the New York investment firm of Osborne & Thurlow. An October wedding is planned.

**MANES-DECKER**—Miss Marion A. Decker, daughter of Mr. and Mrs. Lambert J. Decker of Springfield, Mass., became the bride of Maj. Charles D. Manes, USA, of the N. Y. Chemical District Office, Boston Army Base, Mass., son of Mrs. Bishop Manes of Heber Spring, Ark., on 1 July, at the Murphy Army Hospital, Waltham, Mass., Chapel.

The bride wore a white waltz-length embroidered organdy gown, designed with a three-tier skirt. Her fingertip veil was held by a pearl head piece, and she carried a cascade bouquet of stephanotis.

Mrs. Sidney L. Pol of Newton, Mass., was matron of honor, and Maj. Sherman W. Pratt of Little Rock, Ark., was best man. Ushering were Messrs. S. L. Pol, William L. Hendrix and Lambert J. Decker, jr.

**NARY-DIETRICH**—RADM. (USN-Ret.) and Mrs. William F. Dietrich have announced the engagement of their daughter, Rhoda Louise, to Mr. Ralph William Nary, son of Mr. and Mrs. Edward R. Nary of Hamilton, Ont., Canada.

**CRICHLAW-REIGLE**—In an afternoon ceremony at the Trinity Lutheran Church, Lancaster, Pa., on 7 July Miss Marilyn Kell Reigle became the bride of Mr. Robert William Crichtlow, 3d, son of Maj. Gen. and Mrs. Crichtlow, jr., USA-Ret., of Sleepy Hollow, Falls Church, Va. The bride is the daughter of Mr. and Mrs. Brooks Reigle of Lancaster.

Mrs. Crichtlow

The bride, who was given in marriage by her father, wore a gown of sheer nylon tulle fashioned with a fitted bodice and a scooped neckline accented with Alençon lace flower motifs, its bouffant skirt ending in a cathedral train. Her fingertip French illusion veil was held by a lace Juliet cap enhanced with seed pearls. She carried a white orchid with small rosebuds and gypsophylla.

He matron of honor was Mrs. M. J. Stierstorfer of Allentown, Pa., and maid of honor was Miss Suzanne Brooks Reigle. Bridesmaids were Misses Nancy Ellen Blackwood, Mary Lee Culver, Elizabeth Ann Hollinger and Nancy Pyfer. Best man was Mr. Peter Jannetta. Ushers were Messrs. Russell Johnson, Williamson Bradford, John Delahunty, Joseph Helwig and C. A. Wayne Hurtubise.

The bride attended Lancaster Country Day School and Bryn Mawr College. Her husband, an alumnus of St. Alban's School and Haverford College, will enter his final year at the University of Pennsylvania School of Medicine in the fall. They will make their home in Philadelphia.

**NESBITT-ZITZMAN**—Brig. Gen. (USA) and Mrs. Kenneth F. Zitzman of 4447 Volta Pl., N. W., Washington, D. C., have announced the engagement of their daughter, Kay, to Mr. Earl Johnson Nesbitt, jr., son of Colonel (USAF) and Mrs. Nesbitt of Mitchel AFB, N. Y.

The couple met while attending the Paris-American High School, when their respective fathers were assigned to SHAPE Headquarters in Paris.

The wedding is planned for 1 Sept., at St. John's Episcopal Church, Bethesda, Md., following which, the couple will enter their final year at the University of Texas, where the bridegroom-to-be, a

member of the Sigma Nu fraternity, will complete a course in Architecture.

**MARTINEZ-MARSDEN**—Mr. and Mrs. Joseph F. Marsden announce the engagement of their daughter, Lt. Harriet Ann Marsden, AFNC, to Lt. Peter A. Martinez, USAF, son of Mr. and Mrs. Andres A. Martinez of Taos, N. M.

Miss Marsden is a graduate of the Academy of Notre Dame and of Georgetown University.

Her fiancé, who is a graduate of the University of New Mexico, is now stationed at Offutt AFB, Nebr.

A Fall wedding is planned.

## Notes from Posts, Stations, and Bases

**COL. and MRS. GEORGE T. DUNCAN** (left couple) were honor guests of Lt. Gen. Thomas F. Hickey, Third Army Commanding General, and Mrs. Hickey (right couple) and Third Army staff officers and their wives at a farewell buffet supper at the Fort McPherson Officers' Open Mess. Before his departure for a new assignment in Berlin, Colonel Duncan received his second Third Army Certificate of Achievement for outstanding service as Acting Chief of Staff and Deputy Chief of Staff.

## 1,000 Attend Change-of-Command At MCAS

**KANEOHE BAY, HAWAII.** One of Kaneohe Marine Corps Air Station's largest receptions was held honoring Brig. Gen. Edward C. Dyer, departing commanding general of the 1st Marine Brigade, FMF, and Mrs. Dyer and his relief Col. George R. E. Shell, and Mrs. Shell. Nearly 1,000 officers and their guests attended.

In the receiving line were: Brig. Gen. and Mrs. Dyer, Colonel and Mrs. Shell and Lt. Col. Homer G. Hutchinson, acting air station commanding officer while Col. William B. Steiner is on leave. Mrs. Hutchinson was unable to attend as she is recovering from an operation.

Colonel Shell, his wife, the former Alice C. Cushing, their children, Elizabeth, 20;

Beverly, 16, and Dick, 7, arrived here recently from Norfolk, Va.

The colonel, who has been selected for brigadier general, assumed command of the 1st Marine Brigade, FMF, at a parade and review ceremony Saturday morning.

General Dyer left later with his wife, Frances, and daughters, Katherine and Ellen, for Washington, D. C., where he assumes duties as Assistant Director of Marine Corps Aviation.

High ranking military guests present included: Lt. General and Mrs. William O. Brice, RADM. and Mrs. C. E. Olsen, RADM. and Mrs. E. A. Solomons, RADM. and Mrs. F. N. Kivette, and RADM. and Mrs. J. F. Jelley.

### 10th Inf. Div. NCO Academy

**BAMBERG (APO 36-N.Y.)** Col. M. N. Huston, CO of the 85th Inf. Regt., was guest speaker at ceremonies opening the third class of the 10th Inf. Div. NCO Academy, Bamberg. He was introduced by Capt. John F. Bailey, Commandant of the Academy.

Chap. (Maj.) John A. Lindvall, 85th Inf. Regt. Chaplain, delivered the invocation and benediction. Music was provided by the 85th Inf. Regt. Band.

### 30,000 Stay At Army Bavarian Lodges In June

**BERCHTESGADEN**—More than 30,000 guests visited the Berchtesgaden and Chiemsee hotels and lodges, operated by the U. S. Army in the Bavarian Alps, during the month of June. Berchtesgaden, which is world famous for being the home of Hitler's Berghof retreat on the Obersalzberg and His Eagle's Nest atop the 5,674-foot Kehlstein mountain, has 10 hotels and mountain lodges under the Army management. The Chiemsee Leave Center located at Lake Chiemsee, the largest lake in Germany, is one of the most beautiful and most popular resort areas in Europe and has two hotels.

Heading the lists of guests to the Bavarian playground during June were General and Mrs. H. I. Hodes, Commander in Chief, USAAREUR. Others included Maj. Gen. Shahid Hamid, Pakistan Army; Brig. Gen. and Mrs. Howard Hobson; Brig. Gen. and Mrs. Arthur J. McChrystal, USA-Ret.; Brig. Gen. and Mrs. Robert V. Lee, Mr. and Mrs. Harold Sims, Consul General, Trieste, Italy; Brig. Gen. and Mrs. Charles G. Dodge, Brig. Gen. and Mrs. Alison Gladden, USMC-Ret., and Brig. Gen. and Mrs. E. R. Thorte, USA-Ret.

Other guests included Maj. Gen. and Mrs. Numa A. Watson, Commanding General, SACOM; and Maj. Gen. and Mrs. H. L. Boatner, USMAG, Greece.

The Berchtesgaden Sub Area is under the command of Lt. Col. Kennard S. Vandergriff, TC.

### Carlisle Adjutant

**CARLISLE BARRACKS, PA.** Capt. Earl H. Moyer, jr., USA, is the new Adjutant, succeeding Lt. Col. Furman W. Marshall, USA, now S-1.

### Honored At Lunch

**FT. LEE, VA.** A luncheon was given recently at the Officers Open Mess by the wives of the Chiefs of Divisions and Directors of Departments of the Quartermaster School honoring Mrs. George E. Larsen, who with Lt. Col. Larsen is leaving soon for the Army War College, Carlisle Barracks, and Mrs. W. C. Barefield, who with Lt. Col. Barefield is leaving for Washington, D. C. where Col. Barefield is assigned to the Office of the Quartermaster General.

Mrs. Ira K. Evans, wife of Maj. Gen. I. K. Evans, Commanding General of the Quartermaster Training Command, and Mrs. W. D. Buchanan, wife of Col. W. D. Buchanan, Deputy Post Commander, were invited guests.

Each of the honorees was presented with a silver tray as a farewell gift.

### Entertain Departing Families

**UTAH GENERAL DEPOT.** Quartermaster Supply Section personnel here entertained at a farewell dinner dance recently in honor of Col. and Mrs. Franklin K. Eberhard, who later left for Washington, D. C., where Col. Eberhard will attend the Industrial College.

Col. Eberhard, who has been Quartermaster Supply Officer at the Depot since March, 1955, was presented a scroll bearing signatures of all military and civilian personnel in the Quartermaster Supply Section. In honor of Lt. and Mrs. Richard Hall, who left the post Thursday for a visit with their families in Grandview, Wash., before embarking on 19 July for a new assignment at Whittier, Alaska, Maj. and Mrs. C. E. Pister entertained at breakfast Sunday in their quarters. Present were Maj. and Mrs. William W. Hugill, Lt. and Mrs. John Ruff and Mr. and Mrs. Thomas Chisman.

Mrs. Hall was tendered a farewell party by Mrs. John Ruff. Guests included Mrs. F. G. Thompson, Mrs. Carl E. Pister, Mrs. Hayes Elliott, Mrs. Francis J. Holthaus, Mrs. William W. Hugill, Mrs. W. O. Vickers, Mrs. Thomas Chisman, Mrs. Hearl E. Hudson, Mrs. J. P. O'Brien, jr., Mrs. R. B. Carr, Mrs. K. R. Kimball and Mrs. Robert Smith.

### New Bn. Commander

**ASCHAFFENBERG (APO 36-N.Y.)** The 87th Inf. Regt's 2d Bn. said farewell recently to its leader of more than two and a half years. Departing is Lt. Col. Robert L. Gundlach, who will assume command of the 7th Army NCO Academy in Munich.

The 2d Bn's. new C.O. is Maj. Jack M. Moore, former Bn. Exec.

The change of command ceremonies were witnessed by Col. Joseph O. Anderson, 87th Regt. C.O., and Aschaffenberg Mayor Algon Goppel.

**KANEOHE BAY, HAWAII**—Receiving guests at Marine Corps Air Station's largest reception were (left to right) Mrs. Shell, Col. George R. E. Shell, USMC, new commander of the 1st Marine Brigade, FMF; Mrs. Dyer and Brig. Gen. Edward C. Dyer, USMC, departing commanding general of the Brigade.

### New Hospital Exec.

**FT. STEWART, GA.**—Lt. Col. Oscar T. Nations, USA, has been named executive officer of the U. S. Army Hospital here. He succeeds Lt. Col. John J. Harrington, USA, who departed last week for a new assignment with the Physical Evaluation Board of Walter Reed Army Medical Center, in Washington, D. C.

### Elects Officers

**ROBERT ESPAGNE, FRANCE.**—The new officers of the Trois Fontaines and Vassincourt Officers' and Civilians' Wives Club are Mesdames John Rath, president; Donald Miskowich, vice-president; Michael Godsil, secretary; Frank Munn, treasurer; J. C. Price, corresponding secretary; and Fred J. Gotsige, honorary president.

**AUGSBURG.**—11th Airborne Division plays host to 7th Army and 7th Corps Generals at a reception dinner following the 11th's Army Day Observance at Messerschmitt Field, Augsburg. Standing in the lobby of the Augsburg Officers' Club are (L to R) Mrs. & Brig. Gen. Harvey H. Fischer, Mrs. & Maj. Gen. Halley C. Maddox, Mrs. & Lt. Gen. Bruce C. Clarke, and Mrs. and Maj. Gen. Derrill M. Daniel.

## Six Officers Retire at Presidio of S F

Four Army colonels, all members of the 1926 graduating class of the U. S. Military Academy, ended their 30-year careers with a final parade and review at the Presidio of San Francisco recently.

The four retiring West Pointers were Col. Brookner W. Brady, Inspector General, Sixth Army; Col. Robert S. Nourse, Adjutant General, Sixth Army; Col. Alexander R. Sewall of the Sixth Army Inspector General's Section, and Col. John A. McFarland, President of the Sixth Army Physical Evaluation Board.

Also present at the ceremony was Capt. Francis A. Hastie, Operations Officer of the 30th Engineer Group (Topographic Survey), retiring after 20 years' service.

The public was invited to attend the event which began at 4 p.m. on the Presidio's main parade ground. Two battalions of Presidio troops, approximately 1,000 soldiers, preceded by the Sixth Army Band, passed in review at the end of the ceremony.

Awarded a Ford Foundation fellowship, COLONEL BRADY will attend San Francisco State College following his retirement to prepare himself for a teaching position under the sponsorship of the San Francisco Board of Education.

Colonel Brady is married to the former Miss Marjorie B. Bacon of Los Angeles and they have one son, Brookner Brady, jr., 18, a student at the University of San Francisco. The Bradys will continue to live at 47 Miller Ave., Sausalito, Calif., following Colonel Brady's retirement.

COLONEL AND MRS. NOURSE, the former Miss Mildred Dickenson, of Woodmere, Long Island, N. Y., have a daughter, Joan, who has been living with her parents here, and a son, 2d Lt. Robert H. Nourse, now serving with the 1st Cavalry Division in Japan.

Following his retirement, Colonel and Mrs. Nourse will live at 106 Bretano Way, Greenbrae, Marin County, Calif. Colonel Nourse has already accepted a position as commandant of cadets and professor of military science and tactics at San Rafael Military Academy.

A native of Shreveport, La., COLONEL SEWALL is married to the former Miss Ruth Hamilton Foshay of Beverly Hills, Calif. They have one daughter, Mrs. M. C. Corwell, who is in Germany with her husband, Lieutenant Corwell, a member of the 558th Missile Battalion.

Following Colonel Sewall's retirement, he and Mrs. Sewall will live at 125 East McLellan Blvd., Phoenix, Ariz.

A native of Coeur d'Alene, Idaho, COLONEL MCFARLAND is married to the former Miss Kathryn Sharp of McConnellsville, Ohio. They have two sons, John A., jr., 20, a midshipman at the U. S. Naval Academy, and James L., 17, who has been attending school in San Francisco.

Following his retirement, Colonel and Mrs. McFarland will live in Coeur d'Alene, where Colonel McFarland will teach at North Idaho Junior College.

CAPTAIN HASTIE is married to the former Miss Eula Sneed, daughter of Mr. and Mrs. Levi Sneed of Doniphan, Mo. They have two children, Michele, 13, and Richard M., 11, who have been attending school here.

Following his retirement, the Hasties will live in Pullman, Wash., while Captain Hastie attends Washington State College.

A sixth Presidio officer, Lieutenant Colonel Cyril A. Barnes, also ended his 28-year Army career on June 30, but was not present at the ceremony.

COLONEL BARNES is married to the former Miss Mary A. Staley of Bonham, Tex. They have five children, Francis, 14; Cyril C., 12; Donald, 9; Michael, 3; and Mary Deborah, 10 months. The Barnes family, who have been living at 4 Funston St., Presidio of San Francisco, will reside at 1322 Newbury St., San Bernardino, following Col. Barnes' retirement.

## Service Retired Are Active On Many Fronts

LT. GEN. MERWIN H. SILVERTHORN, USMC Ret., has been appointed an ODM consultant in the Plans and Readiness Area by Arthur S. Flemming, Director of Defense Mobilization. General Silverthorn will assist the Assistant to the Director for Plans and Readiness in coordinating the development of preparedness programs and in testing the operational readiness of mobilization plans.

The new ODM consultant will become Assistant to the Director for Plans and Readiness when LT. GEN. WILLARD S. PAUL, USA-Ret., leaves that post August 1. General Paul is resigning to accept the presidency of Gettysburg College.

During 37 years in the Marine Corps, General Silverthorn held a number of high-ranking posts. He was Assistant Commandant of the Corps in 1950 and Commanding General of the Parris Island Recruit Depot in 1952. General Silverthorn, who now lives in Brookdale, Md., has three sons in the Marines.

VADM. ARTHUR D. STRUBLE, USN-Ret., has been appointed Special Advisor to the Hamilton Watch Co. and will concentrate on plans for guided missile and rocket components research and development.

BRIG. GEN. JOHN F. BIRD, USA-Ret., until recently Deputy CG of the Artillery and Guided Missile Center at Ft. Sill, Okla., where he has been succeeded by Brig. Gen. Mercer C. Walter, USA, will become associated with the Ft. Sill National Bank. He and Mrs. Bird will reside in Lawton, Okla.

COL. JAMES R. WHEATON, USA, Chief of Kentucky Military District, has retired after 34 years of active Army service. Col. Wheaton received honors both at Second Army Headquarters, Ft. Meade, Md., and at K.M.D.

MAJ. GEN. JOHN K. RICE, USA-Ret., is receiving acclaim in Florida for the success that he and Mrs. Rice are having on their farm in Clermont in raising lychee trees. Half of their 200 trees will be three years old this month and will produce fruit for the first time. There are less than 100 lychee growers in Florida.

### Retired Admiral Retires

Fred S. Hage, jr., has been named director of public relations of Solar Aircraft Company, succeeding VADM. Wilder D. Baker, USN-Ret., according to an announcement by Herbert Kunzel, Solar president. Admiral Baker is retiring from Solar.

Mr. Hage joined Solar 10 years ago, and has held several positions in the sales division, most recently as senior analyst in the marketing services department. A native of San Diego, Hage served in the Air Force in WW II.

Before retiring from the Navy in 1952, Admiral Baker held a variety of commands, including that of the Eleventh Naval District with headquarters in San Diego. He joined Solar as assistant to the president following his retirement. Adm. Baker has been active in many civic and community groups, and is a director of several corporations.

### A Retired Colonel Joins Retired Gen.

Col. Malcolm R. Kammerer, USA-Ret., former Fourth Army G-3 at Ft. Sam Houston, Tex., will make his home with his wife, Louise, in Tyron, N. C.

Mrs. Kammerer's father, Brig. Gen. Laurence Young, USA-Ret., is a resident of Tryon.

Before assignment to Ft. Sam Houston, Colonel Kammerer was C.O. of the Seoul Military Post in Korea.

LT. GEN. E. R. "PETE" QUESADA, USAF-Ret., formerly head of the Missile Systems Division of Lockheed Aircraft Corporation, has been named Chairman of the Board and Chief Executive Officer of Topp Industries, Inc., an electronics research-development and manufacturing firm with offices in Los Angeles, Calif., and State College, Pa.

COL. LAURENCE A. MATTERNES, MC, USA-Ret., is now Surgeon for the Pennsylvania Railroad in Philadelphia. He and Mrs. Matternes and their daughter, Anne, reside at 11 North Drexel Avenue, Havertown, Pa.

COL. J. E. RAYMOND, USA-Ret., takes office 1 Sept. as mayor of Bowling Green, Va., where he has resided since retirement in September 1954.

COL. B. DIXON HOLLAND, USA-Ret., who retired recently at Aberdeen Proving Ground, Md., has accepted a post as Secretary to the Council on Industrial Health of the American Medical Association and will have offices at 535 North Dearborn Street, Chicago 10, Ill. He and Mrs. Holland will reside at 1007 Dempster Street, Evanston, Ill.

COL. N. A. MATTHIAS, CE, USA-Ret., formerly Seattle District Engineer, accompanied by Mrs. Matthias and their son, Pete, will travel to Ankara, Turkey, where he will supervise several construction projects for the firm of Tippetts - Abbott - McCarty - Stratton, Engineers. Lt. Norman A. Matthias, jr., USA, and Lt. and Mrs. Judson S. Matthias, USA, are now with the 9th Infantry Regiment of the 2d Infantry Division in Alaska. A daughter, Mrs. George H. Cloakey, jr., is with her husband at Carswell AFB, Tex.

## 86 Reach Captain With 9 July DOR

Special Orders No. 136, 9 July, announces the promotion of 75 line first lieutenants to temporary captain, with a cutoff date of 14 July 1952.

Also promoted to captain are Chaplains Ralph F. Adamson, Jack J. Carmichael, Gordon E. Hutchins, Joseph T. Powell and Walter J. Vrudny.

1st Lt. Jean I. Castles, WAC, was promoted to captain in the same order.

## Births • Marriages • Deaths

(No charge for Service announcements. Please notify promptly.)

### Born

**ABBIATI**—Born at Ft Meade, Md, 5 July, to Lt and Mrs Charles A Abbiati, a daughter.

**ADKINS**—Born at Ft Meade, Md, 27 June, to Capt and Mrs Jack Adkins, a daughter.

**AHR**—Born at Brooke AH, Ft Sam Houston, Tex, 2 July, to Lt Col and Mrs Lee A Ahr, a daughter, Helen Ruth Ida.

**AKERS**—Born at Fitzsimons AH, Denver, 2 July, to Capt (USAF) and Mrs Dwight M Akers, a son.

**ALLEN**—Born at Ft Monmouth, NJ, 3 July, to Maj and Mrs Edgar W Allen, Bldg 2035 Camp Wood Area, Ft Monmouth, a daughter.

**ANTRAM**—Born at Ft Dix, NJ, 27 June, to 1st Lt and Mrs Albert Antram, a daughter, Diane Jean.

**ARDEY**—Born at Ft Devens, Mass, 28 June, to Lt Col and Mrs Edward Rice Ardey, their fourth child and second daughter, Joan.

**ARNOLD**—Born at Osaka, Japan, 18 June, to Sp2 and Mrs Robert B Arnold, a daughter, Ruth A.

**ATCHISON**—Born at Ft Leavenworth, Kans, 26 June, to Capt and Mrs Frank E Atchison, a daughter, Barbara Ann.

**BANCHERO**—Born at Ft Ord, Calif, 22 June, to Ens and Mrs Louise A Banchero, 1247 Leahy Rd, La Mesa Village, Monterey, Calif, a son, William Edmond.

**BEARD**—Born at Brooke AH, Ft Sam Houston, Tex, 30 June, to Capt and Mrs Gordon E Beard, a daughter, Betsy Ann.

**BELL**—Born at Maxwell AFB, Ala, 26 June, to 2d Lt and Mrs Hiram J Bell, a son, Joel Ausborn.

**BENLICK**—Born at Valley Forge AH, Phoenixville, Pa, 25 June, to 1st Lt and Mrs George H Benlick, a daughter.

**BENNETT**—Born at Frankfurt, Germany, 2 June, to Lt Col and Mrs Verde V Bennett, Hq V Corps, APO 79, New York, NY, a son, Joe Verde.

**BENSON**—Born at Ladd AFB, Alaska, 25 June, to 1st Lt and Mrs David O Benson, a son, Ian Andrew.

**BEWICK**—Born at Wiesbaden, Germany, 27 June, to S/Sgt and Mrs Thomas H Bewick, 7405th Support Sq, APO 633, New York, NY, a son, Anthony Michael.

**BOBBITT**—Born at Carswell AFB, Tex, 23 June, to WO and Mrs Alfred F Bobbitt, a daughter.

**BOCHICK**—Born at Wiesbaden, Germany, 23 June, to T/Sgt and Mrs John F Bochick, 7167th ATS MSM, APO 57, New York, NY, a daughter, Karen Sue.

**BOUSSER**—Born at Maxwell AFB, Ala, 25 June, to 1st Lt and Mrs James E Bousser, a son, David Andrew.

**BOZMAN**—Born at La Chapelle, France, 30 June, to T/Sgt and Mrs Glendon Bozman, a son, Alan Wayne.

## Obituaries

### Col. George P. Dixon, USAR-Ret.

Graveside services for Col. George P. Dixon, USAR-Ret., who died at Georgetown University Hospital, Washington, D. C., on 9 July, were held at Arlington National Cemetery, on 11 July. He was 67 years old.

Born in Worcester, Mass., Colonel Dixon was graduated from Worcester Polytechnic Institute in 1912. He began his Army career with the National Guard in 1916 and served in the active Reserve during both World Wars with the Army Signal Corps. Between the wars, he remained a Reserve officer in the Signal Corps, until his retirement as a full colonel in January 1949. During WWII, he was Chief Signal Officer for the 8th Air Force and Director of Communications for the US Air Forces in Europe, for which outstanding service, he received many decorations.

His background in the communications field began with the Pacific Telephone and Telegraph Co. in 1912. He continued with the Bell System, in the Western Electric Co. and the New York Telephone Co., until 1929, when he joined the National City Bank of New York where he was in charge of communications until 1940. After WWII, Colonel Dixon was made a Vice President of International Telephone & Telegraph Corp. and was regional Vice President in Brazil for 18 months. At the time of his retirement in January 1950, he was staff Vice President in New York.

After his retirement from the IT&T, Colonel Dixon was named Executive Secre-

tary of the Armed Forces Communications Association, Washington, (now the Armed Forces Communications and Electronics Association) and Editor of the Association's journal, *Signal*. In 1953, he became Executive Vice President and continued in this position and as editor of *Signal*, until the time of his death.

He is survived by his widow, Mrs. Edna Spitzer Dixon of 20 Belfield Rd., Belle Haven, Alexandria, Va.; two daughters, Miss Penelope Ann Dixon, and Mrs. Richard Hass of Hartford, Conn.; one son, Mr. Peter A. Dixon of Washington; and one sister, Mrs. John W. Bishop of Harwich Port, Mass.

### Brig. Gen. Marshall Magruder, USA-Ret.

Funeral services for Brig. Gen. Marshall Magruder, USA-Ret., who died at Walter Reed Army Hospital, on 4 July, after a short illness, were held at the Ft. Myer, Va. Chapel, on 6 July, with burial at Arlington National Cemetery. He was 70 years old.

General Magruder, who was born in Washington, attended Emerson Institute and George Washington University, where, while a student, he rose through the ranks to command Co. K of the Second Infantry, D. C. National Guard. In 1908, he was commissioned a second lieutenant in the Field Artillery and began his career with the 6th Field Artillery. He served on the Mexican Border in 1912, had foreign service in the Philippines, went overseas with the 1st Division in 1918, and served in Hawaii in 1935.

In 1940, when the First Armored Corps was created, General Magruder was promoted to brigadier general and made Chief of the Armored Force Artillery, with the task of developing the tactical use of armored artillery. He later trained and commanded the 14th Field Artillery Brigade. His last duty, before retiring in 1946, was with the War Department Manpower Board for the Southeastern States.

A brother of the late Maj. Gen. Bruce Magruder, he is survived by his widow, Mrs. Anne Peyton Magruder of Cleveland House, 2725 29th St., N. W., Washington; one son, Mr. Peter Marshall Magruder of Coral Ga-

bles, Fla.; two daughters, Mrs. Loren F. Cole of Palm Beach, Fla., and Mrs. William H. Craig of Ft. Meade, Md.; and ten grandchildren.

QUALIFY FOR A COLLEGE EQUIVALENCY DEGREE by comprehensive examination. Double your chance for promotion, better pay, etc. No courses. Free details. Cramwell, D-7, Adams, Mass.

## INDUSTRY IN DEFENSE

### Services Will Build 84,218 Home Units

The Pentagon was urged this week "to do everything possible" to provide more housing for military families.

However, a serious threat to the overall housing program also developed at the Capitol (see "Future Housing Hits Snag").

The urgent request to speed up housing came from the House Appropriations Committee which gave its approval to a \$1.4 billion Armed Forces construction program, including about \$80 million for family housing in the States and \$150 million overseas.

The Committee said the Services "must devote greater effort" to family housing.

Methods of warfare are becoming increasingly complex and technical, the Committee noted, as are the duties and responsibilities of the individual servicemen. And, technicians trained by the Services are in constant and increasing demand for employment in private industry.

"While the Services cannot provide all of the benefits entailed in private employment," the Committee counseled, "reasonable living conditions, a basic requirement, can and should be provided."

The construction budget approved by the Committee is expected to be increased substantially before it goes to the White House. A House-Senate conference committee already has approved a \$2.1 billion authorization for military public works.

Family housing included in the public works bill and in the Capehart program totals more than 84,000 units for the new fiscal year which began on 1 July.

Here is a breakdown, by Service, showing the number of units to be constructed with appropriated funds, the number to be built overseas under the surplus agricultural commodities program, the number to be erected under the Capehart program, and (in the Air Force) the number to be constructed under the Rental Guaranty Program:

	Navy- Air	Army USMC Force
Appropriated Funds	196 338 3,349	
Surplus Agricultural		
Commodities	505 — 607	
Capehart Program	19,000 7,670 52,000	
Rental Guaranty	— — 553	
<b>Total</b>	<b>19,701 8,008 56,509</b>	

It is not expected that more than 10 or 20 percent of the Capehart housing will be constructed during 1957, but the Appropriations Committee "urged" the Pentagon "to do everything possible to expedite all family housing construction."

The 84,218 units will cost more than \$113 million.

### Fairchild Backlog Up; C-123 Orders Total 279

Fairchild Engine and Airplane Corporation reports receipt of approximately \$90,000,000 in new orders, bringing their backlog to substantially more than \$200,000,000.

Richard S. Boutelle, Fairchild president, said new major contracts have been received during the second quarter and include orders for the Fairchild C-123 assault transport, the Fairchild F-27 commercial turbo-prop transport, large B-52 component subcontracts; a new lightweight, high performance jet engine for the Air Force; additional quantities of J-44 jet engines; missile and radar equipment and Stratos accessories. All but one order, which is covered by a letter of intent, represent signed contracts.

The Air Force has placed an order for another 42 C-123's and spare parts for these planes. Mr. Boutelle pointed out that this contract, which will run through June 1958, brings to 279 the number of C-123's now built or on order for the Air Force. Other Division contracts cover a prototype of a pl-tall version of the C-123 with other improvements such as a wider landing gear, and a prototype of a VTOL aircraft.

### Bomb Test Veteran Named AMF Director

Sidney F. Musselman, formerly Project Control Manager of the Engineering Division of American Machine & Foundry Company, has been appointed Director of Engineering Operations. During WW II he served as Chief of the Gun Carriage Branch of the Artillery Development Division, Research and Development Service, in the Office of Chief of U. S. Army Ordnance in Washington. He later became Chief of the Artillery Development Division. In 1946 he was put in command of the Army Ordnance section of Joint Task Force One for testing of all Ordnance materiel and ammunition during the first atomic bomb tests at Bikini Atoll. He was released in 1946 with the rank of Lieutenant Colonel.

### Notes On Industry

Consolidation of design, development and manufacturing accessory activities into a single **Accessory, Manufacturing and Test Department** at the Propulsion Research Corporation, a subsidiary of the Curtiss-Wright Corporation, Santa Monica, Calif., has been announced today by A. V. Finn, President. The new Accessory Department designs and builds centrifugal and axial flow blowers with capacities up to 60,000 cfm, air-driven fuel pumps, components of cabin conditioning units and anti-icing fans.

Five major airlines have made known their acceptance of the new **Integrated Flight Instrument System** designed by Kollsman Instrument Corporation. The system provides corrected altitude for the entire range of the aircraft. Douglas Aircraft Company was the first airframe manufacturer to announce acceptance of the Kollsman Integrated Flight Instrument System for use on the DC-8.

Edward T. Keast, jr., has joined Piasecki Aircraft Corporation at Philadelphia as Project Engineer on the new "Sea Bat." Frank N. Piasecki, President, announces. Until recently, he held a similar position with Vertol Aircraft Corp. The "Sea Bat" will be completely automatic in flight, controlled electronically from shipboard or land bases.

Plans for a \$600,000 expansion program for the Bell Aircraft Corporation plant at Hurst, Tex., have been announced by Vice President Harvey Gaylord. Approximately 40,000 square feet of manufacturing floor space will be added to the Bell-owned facility, Gaylord said, boosting the investment in the division to nearly \$16,000,000 and floor space to more than 625,000 square feet.

J. E. Williams has been appointed vice president and general manager of the Western Brass Mills Division, Olin Mathieson Chemical Corporation.

The Stockham Valves and Fittings Co., Inc., of Birmingham, Ala., has been presented the Department of Defense **Reserve Award** "... for outstanding cooperation with Reserve activities of the Armed Forces" in ceremonies. Mr. Richard J. Stockham, President, accepted the award from Lt. Gen. Thomas F. Hickey, USA, Third Army Commander, who presented the citation on behalf of Secretary of Defense Charles E. Wilson.

A bulldozer-type machine, designed for moving crashed bombers from runways, has been delivered to the Air Force by R. G. LeTourneau, Inc. Two of them can remove a 400,000-pound crashed bomber in less than 20 minutes.

Joseph R. Pernice, Chief of the Electronics Section of NATO's Production and Logistics Division, has been appointed **MANAGING DIRECTOR** of Collins Radio Company of England, Ltd. He assumed his new position 1 July after release from his North Atlantic Treaty Organization assignment in Paris. The firm is a subsidiary of Collins Radio Company of Cedar Rapids, Iowa.

## U. S. COAST GUARD

Secretary of The Treasury—George M. Humphrey  
Commandant—Vice Adm. Alfred C. Richmond

**A**CCCEPTANCE trials of a new 52-foot lifeboat have been completed at the Coast Guard Yard.

The vessel was designed by Headquarters of Engineering to fulfill requirements specified by operating officers and men, representing the first major change in Coast Guard lifeboat design in more than 20 years.

The conventional double-ended hull form has been retained, but twin screws and steel construction have been added. The superstructure and interior trim are made of aluminum alloy. Advanced features include fire and salvage pumps of 500 gallons per minute capacity driven by the main diesel engines; improved visibility and protection at inside and outside steering stations; power driven anchor windlass and towing capstan; forced ventilation and electric heating for compartments; complete galley, messing and living accommodations; fathometer; radio direction finder, and radio communication equipment.

The first of the new vessels has been assigned to Yaquina Bay Lifeboat Station, Ore.

### APPOINTMENTS

President Eisenhower has appointed 154 Regular and Reserve officers to the next higher rank for temporary service with dates of rank from 1 July 1956.

Of the total number, one dons two-stars, 13 move up to four-stripe rank, 27 to three-stripe rank, 43 become lieutenant commanders, and 70 lieutenants.

The names of the appointees are:

#### WARRANT

Bent, Leroy F, CGRecen, Alameda, to Avoyel.  
Richtman, Rolland H, Eatons Neck CGLBSta, to Sorrel, canceled, to CGD3 (FurAsDu).

### RCA Builds Fire-Control Radar For Starfighter

The Radio Corporation of America has developed and is producing a compact, lightweight electronic fire-control radar system for the F-104 Starfighter, Theodore A. Smith, Executive Vice-President, RCA Defense Electronic Products, announces.

Mr. Smith said that "a major feature of the system is a bright radar display which, for the first time, will enable a pilot to view the radar picture in broad daylight without the encumbrance of a light-shielding hood."

## Sec'y. Quarles Fights On

**A**IR FORCE Secretary Donald A. Quarles, who has been in the vanguard of the drive to improve career attractiveness since the day he took over from former Secretary Harold E. Talbott, showed this week that he does not intend to relax his efforts.

Speaking 10 July at an Air Defense Crew Appreciation Dinner sponsored by the Minneapolis, Minn., Junior Chamber of Commerce, Mr. Quarles said he was convinced that "no new weapon we could devise would contribute as much to the effectiveness of the Air Force as would a solution to our problem of attracting and keeping qualified people."

Said Secretary Quarles:

"IN THE PAST our Nation maintained very small peacetime forces, because we could depend upon having time after war was upon us to build up our combat forces. This is no longer true. If the Air Force is to do an effective job of deterring war, we must build up a professional corps of officers and airmen thoroughly trained to maintain and operate our equipment and facilities.

"We are making some progress toward this objective—our present reenlistment rate is the highest since the end of the Korean emergency—but we are still experiencing great difficulty in retaining airmen with critical skills.

"To keep our experienced people, we must compete more effectively with the financial and other benefits of civilian life. The pay raise and other benefits that were voted a year ago and during the current session were important steps in that direction. But, there are still unfulfilled needs, such as more adequate housing near our bases and better recreational facilities.

"AS I SEE IT, we must get away from the concept that it is reasonable and proper to expect a serviceman to accept benefits well below the civilian standards. This could be all right in wartime. When the entire Nation is mobilized for war and victory, and we are all emotionally involved, you can expect people to make that kind of sacrifice.

"But today and for the foreseeable future we have to be organized for the long pull, in which we may be required to maintain this kind of position of strength for years or decades without the all-out pressures of war. The only way we can do that and do it effectively is to approach it as a businessman would approach his business; we must realize that we have to compete for people and for public interest in our problem, and make our business one that can meet outside competition."

**CONCLUDING HIS ADDRESS,** the Secretary declared:

"I think that what I have been saying this evening all boils down to the fact that the American people must understand we are living in a new and unprecedented age. For the first time in our history we must accept and actively support strong military forces not, we hope, to wage war, but to deter war. This situation requires a sustained effort from us all.

"It imposes hardships upon us—inevitably upon some more than others, and it is expensive, though much less expensive than war itself. I believe our deterrent strategy, steadily and intelligently adhered to, will see us through.

"I AM ALSO CONFIDENT that if we keep resolutely on this course, time runs in favor of the way of life we stand for. The whole free world looks to us for strength and leadership. Our Nation never had a greater challenge."

## General Twining Tells Conclusion of Soviet Trip

From page 25—

are required to have, along with the necessary intellectual capacity to pass a qualifying examination, several years' experience with tactical units. The course last three years. We asked how many students were in the school, but no satisfactory answer was supplied. The physical plant, excepting for the somewhat run-down airfield that was adjacent to it, gave a favorable impression.

**AMONG THE CLASSROOM EXHIBITS** was a training table layout demonstrating an air attack upon a naval carrier formation. In another classroom devoted to the study of fighter tactics, there were on view models of several U. S. aircraft, including the B-52, the F-100, the F-101, the B-66, as well as a model of the U. S. Navy Carrier Franklin D. Roosevelt. There was evidence among the displays that part of the curriculum deals with the tactics of nuclear warfare. At Monino Academy we gained a limited insight into some of the areas of training that are manifestly of interest to the Soviet Air Force.

However, our attempts to obtain detailed comment on the quality of training and on current doctrine and tactics were met with non-committal answers which fended off further discussion.

This completes my account of the few elements of Soviet airpower that our party was permitted to see. Apart from the scheduled visits to installations exclusively of air significance, we were taken on a brief tour of the atomic electric power station southwest of Moscow. This plant has become a Soviet showpiece open to numerous foreign visitors. We hoped that this side trip might provide a chance hint of some of the military applications of the Soviet nuclear energy program. Instead we got only the standard Soviet discourse on their devotion to the "peaceful uses" of atomic energy. While this visit therefore contributed nothing directly to our professional appraisal of Soviet air weapons, it did provide a useful addition to our overall impression of Soviet technological capability.

**IN WEIGHING THE OBSERVATIONS** that I have put before you, it is important to bear in mind the conditions imposed upon us by our hosts.

Let me distinguish, at the outset, between an outward display of hospitality on the one hand and, on the other, a conscious and calculated concern for the pursuit of Soviet self-interest. Though the welcome mat was laid out with a flourish, a careful hand was kept on the door.

Our Russian hosts were certainly cordial to us. They went out of the way to make sure that we were comfortable, and from their attitude it was plain that the Soviet leaders, in showing us what they chose to show, felt they were being fairly open-handed. Certainly by contrast with their accustomed habits of secrecy, they did open the door—if only a crack. In reality, however, they gave us much less information than is openly available to them about our own Air Force and defense preparations. What we saw and what we heard was, for the most part, only what the Soviets elected to reveal in accordance with their current world propaganda line. That line—and they dwelt on it continuously while we were there—is meant to persuade the Free World that their military preparations are essentially defensive in nature and that the much-advertised Soviet program for reduction of armaments should be accepted at face value.

**ILLUSTRATIVE OF THE SOLID FRONT** between the Soviet political and military leaders in trying to get this point across was an impromptu exchange between Marshal Zhukov and one of my group. Commenting upon the small number of heavy bombers that had flown at Tushino, a member of my party noted, in effect, "Why so few? You are building these aircraft in quantity, aren't you?" Zhukov's reply was, "Oh, they are in production, but we are a peaceful people. We do not want to boast about our offensive weapons and offensive capability."

From the carefully controlled nature

of our tour, it was manifest that the Soviet leaders are still being wary about revealing much of their military power. So deeply rooted are the habits of secrecy and so all-pervading is the apparatus of discipline that it proved impossible for us to carry on even the most elementary professional discussions with our Soviet opposite numbers. The guides who escorted us monitored our conversations with plant officials and other Russians with whom we came into contact; and whenever the discussions seemed to be getting off a general track, they were quick to interrupt. These guides also kept a watchful eye on members of our party and allowed no one to linger behind for a longer look at some object of interest.

At the same time, it is worth noting that while the Soviets steadily discouraged any unusual show of curiosity on our part, they made no effort on their side to pump members of our party for information about our own Air Force.

In addition to the language and security barrier that inhibited professional discussions, they let us see their operational aircraft and prototypes under conditions that permitted only the most cursory observation. They allowed detailed inspection only of those equipment items about which they had reason to suppose we already possessed rather complete information, or which had no important relationship to their very long-range offensive air capabilities.

Bearing in mind the limiting conditions under which our brief visit was conducted, let me now sum up the results and findings.

**WITH REGARD TO APPRAISING** current and potential Soviet air strength, it must be said in frankness that we obtained no new information of significance.

In such important matters as long-range bomber production, defensive and offensive guided missile systems, and military applications of nuclear energy, as well as details concerning operational forces, we met a blank wall. Nevertheless, the inspection of their aircraft and equipment, limited as it was, naturally proved illuminating to the professional experts in my party. In this respect, our trip was profitable.

Furthermore, our contacts with key Soviet military figures permitted the members of the group to form some opinion as to their professional competence. We met, for the first time, such senior Soviet air commanders as Marshals Zhigarev, Rudenko, Sudets, Vershinin, as well as lesser known officers. Our general impression was that the command element in Soviet aviation is made up of tough, aggressive, resourceful leaders. We also met such leading designers and production men as Tupolev, Lyulka, Arkhangelsky, Tumanski and Klimov. These men appeared to be enthusiastic, vigorous and confident, but not averse to learning what they can from work being done outside the Soviet Union.

There was much evidence during our trip that the prestige of the Air Force in the Soviet Union has risen, and that both air force commanders and those engaged in the design and production of aircraft enjoy high esteem among top government leaders.

**BESIDES OUR OBJECTIVE** of attempting to gauge the position of Soviet aviation today, we had in view the important task of getting a feel for its potential in the years ahead. By way of general conclusion, I feel that our visit substantially strengthened our previous assessments that the USSR, while certainly not abreast of us today, can and is progressively narrowing the technological lead of the West generally and of the United States in particular.

The factors supporting this judgment include their emphasis on a thorough technical training of a large number of carefully selected personnel; the widening variety of aircraft under development; their ability to squeeze the maximum potential from a jet engine of western origin and at the same time to develop powerful new engines on their own; and the rapid rate of progress they have shown during the last few years in the research and development field.

Furthermore, given the heavy emphasis which the Russians are placing upon the forced development of a new technical generation, beginning with primary education and carrying through basic research and engineering development, we must in prudence reckon on the possibility of their achieving a scientific breakthrough and consequent technological surprise in new weapons.

You will recall that at the beginning of this statement I mentioned that among our purposes in going to the Soviet Union was to take soundings as to the desirability of future reciprocal military visits. Obviously, any decision on this complicated matter involves numerous political considerations which are not within my province.

**THIS MUCH I CAN SAY:** First, Soviet officials at all levels constantly repeated the hope that our visit would be the first of a series of encounters leading to wider exchange. They plainly desire an early invitation to pay a reciprocal visit to the United States. Second, the nature of the Soviet overtures indicated a definite desire on their part to establish a pattern for the exchange of military information on their terms as a possible alternative to the President's aerial inspection proposal which they continue to reject.

Mindful of our experiences in this first venture, I set forth in my report to the President those conditions for the control of reciprocal military visits which I feel should apply, in the event our Government decides to continue such exchanges.

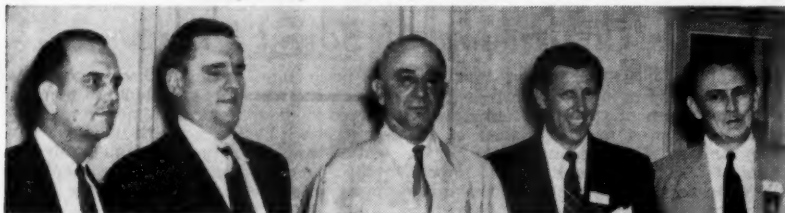

Finally, I would like to deal with an apparent misunderstanding which arose out of certain general statements by me at a press conference following my report to the President at Gettysburg. The crux of the matter is whether what I saw and learned in Russia has caused me to change the position I had previously held concerning the relative air strengths of the United States and the Soviet Union.

As the members of this committee will readily appreciate, if anything is certain in this uncertain world, it is that air forces, in common with other institutions, do not stand still. Time and circumstances—and the circumstances include both what we do and what the Soviets do—will undoubtedly bring changes in any given evaluation of the complex question of relative air strength.

**SO FAR AS THIS VISIT IS CONCERNED,** I want to make it unequivocally clear that our findings do not justify any hasty action to write down, or for that matter, to write up our previous assessments of Soviet air power. In the first place, as I told the President, the opportunity accorded us during our visit to see and ask questions about Soviet air strength was, in my judgment, much too limited to provide a basis for any substantial revision of previous estimates. These assessments—the substance of which I gave to this committee in February—rest on a much broader body of evidence than could be acquired on such a brief and carefully controlled visit as mine.

In the second place, as I have already pointed out in this account to you, our visit did have the positive effect of strengthening our previous judgment that the rate of progress and improvement in Soviet air weapons—backed by a massive scientific and industrial effort—is such as to give us cause for serious thought about the future. As regards relative quality of aircraft at the present time, we can be reassured that we have not lost our lead. This was our judgment before we went to the Soviet Union; it still stands. We must protect this qualitative lead by a continuing heavy investment in research and development. I am convinced that our present spending on research and development is not only fully justified, but that increases in this area are warranted.

As to quantities of aircraft, we saw nothing during our short stay in the USSR which would lead us either to raise or to lower our previous estimates of Soviet production capabilities, or of the numbers of aircraft which they have on hand. It must be noted that nothing was revealed to us in the important area of guided missiles.

NEWLY-ELECTED officers of the 4th Marine Division Association, which recently held its annual reunion in Washington, D. C., are, left to right: Lt. Col. Charles Hagen, Judge Advocate; Cpl. Ray Marine (Ret.), Second Vice President; Brig. Gen. Melvin Krulwich, President; Capt. E. F. Blanchard, First Vice President, and Maj. Frank Tatum, stationed at Headquarters Marine Corps, Secretary.

## FUTURE HOUSING HITS SNAG

The future of the military family housing program looks black as the result of new developments at the Capitol.

Pentagon blueprints for a long-term housing construction program may have to be tossed out the window unless the powerful Rules Committee of the House can be talked into a different frame of mind.

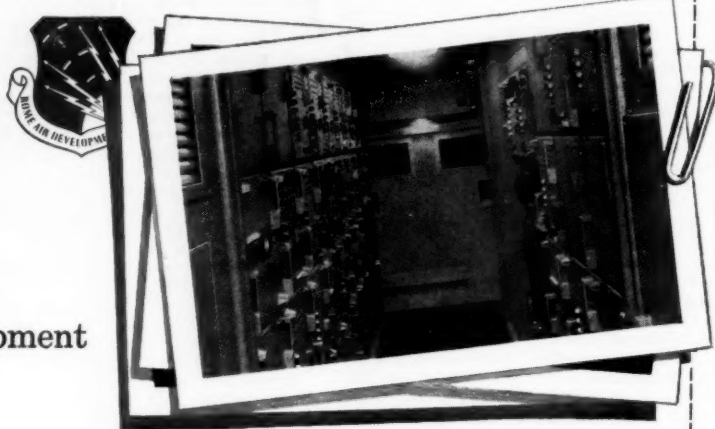

Hope for continued authority to build thousands of housing units for Service families hinges on Congressional extension of the present Capehart Program—due to expire in September.

A three-year extension has been voted by the Senate and by the House Banking and Currency Committee but has been pigeonholed by the House Rules group.

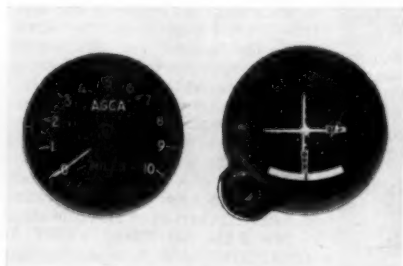

Members of the Rules Committee have no fight with the military family housing program, but they don't like a provision of the omnibus housing bill which authorizes construction of 180,000 Federally-subsidized housing units for the public at large. The effect of their action, however, could kill both.

Progress report: No. 2 of a series

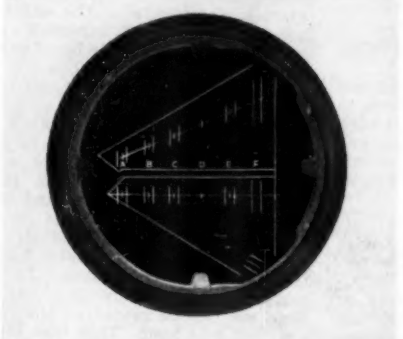

Now undergoing official flight test evaluation at USAF Rome Air Development Center, Rome, N. Y.

## GILFILLAN AUTOMATIC GCA

**AIRBORNE DISPLAY:** Airborne instrument panel continuously displays elevation and azimuth deviation, and distance-from-touchdown data, enabling pilot to monitor automatic approach or to override autopilot for manual approach or to monitor standard GCA talkdown. When aircraft reaches IFR field minimums, a warning light automatically advises pilot.

**GROUND DISPLAY:** Each of AGCA's six tracking channels, in turn, automatically searches for and locks on successive aircraft and transmits proper control signals for individual automatic approach. Schematic shows aircraft A, B, C and E on automatic approach, aircraft D on GCA talkdown, tracking-channel F on search.

Aviation authorities attending current RADC evaluation tests agree Gilfillan Automatic GCA will demonstrate remarkable efficiency in handling high-density, mixed aircraft rapidly, and with complete protection for all aircraft in the landing pattern.

Favorable comment is being made on AGCA's proved mixed traffic handling capacity to provide (1) Automatic approach, (2) complete position data to pilot for manual approach or (3) standard GCA talkdown—to individual aircraft as required, in the same constant stream of traffic.

Gilfillan AGCA does not obsolete existing equipment, but functions as an extended automatic use of proven basic GCA and standard airborne telemetering equipment, relieving the GCA operator of vocal transmission of data, and the pilot of the manual chore of flight path correction. AGCA, with one monitor, takes the place of six GCA operators and several GCA equipments.

AGCA obtains aircraft position from basic GCA electronically, transmits flight correction data by radio impulse to standard airborne equipment, which activates autopilot with correct up/down right/left control for smooth approach to the runway.

AGCA also provides the pilot with range information and complete altitude and azimuth control data on his instrument panel at all times, enabling pilot to monitor automatic approach, or, optionally, to override autopilot for manual approach utilizing 3-dimensional data provided by AGCA, or to monitor standard GCA talkdown.

Pilots flying in RADC tests note that each individually controlled aircraft is also protected as part of the continuous traffic flow, through the "block signal" system of automatic overtake warning and instant closed-loop indication of any deviation from safe landing limits.

AGCA is the result of ten years of joint research and development by USAF Rome Air Development Center and Gilfillan.

PRIME CONTRACTORS FOR COMPLETE SYSTEMS

Los Angeles

Electronic Countermeasures / Automatic Navigational Aids / Missile Guidance Systems / Airborne Radar / Radar Trainers

## Rehab Pay Rates

Following are examples of the amounts of readjustment pay to which Reservists in different grades with varying periods of service are entitled under the terms of the new law:

		Officers		
		Cumulative years of service		
		With	With	With
Grade	Title	5 years	10 years	17 years
O8	Maj Gen..	\$2,043.60	\$5,109.00	\$8,685.30
O7	Brig Gen..	2,125.50	4,251.00	7,226.70
O6	Col .....	1,579.50	3,159.00	5,569.20
O5	Lt Col ....	1,267.50	2,535.00	4,906.20
O4	Maj .....	1,072.50	2,418.00	4,508.40
O3	Capt. ....	936.00	2,184.00	4,110.60
O2	1st Lt ....	838.50	1,911.00	3,513.90
O1	2d Lt ....	741.00	1,716.00	3,182.40
W4	CWO .....	887.25	2,008.50	3,978.00
W3	CWO .....	809.25	1,735.50	3,248.70
W2	CWO .....	702.00	1,599.00	3,041.30
W1	WO .....	628.00	1,470.50	2,731.90
		Enlisted		
E7	M/Sgt .....	575.25	\$1,306.50	\$2,453.10
E6	Sgt 1st C .	487.50	1,170.00	2,187.90
E5	Sgt .....	458.25	1,053.00	1,989.00
E4	Cpl .....	399.75	936.00	1,790.10
E3	Pfc .....	331.50	780.00	1,392.30
E2	Pvt .....	273.00	663.00	1,127.10
E1	Pvt .....	266.50	533.00	906.10

## Services Reveal Plans

From first page—

will include the following rated personnel: 1,881 majors, 9,209 captains, 5,188 first lieutenants and 2,275 second lieutenants. The remaining 7,216 will be non-rated, as follows: 732 majors, 3,581 captains, 2,018 first lieutenants and 885 second lieutenants.

Both Services will use the first 18 months after enactment of the legislation to select and process applications for regular appointments. After the first 7,000 appointments in the Army (to be completed by 1 July '58), an additional 4,000 will be appointed over a five-year period.

In the Air Force, after the first 25,000 are appointed (by 1 Jan. '58), an additional 6,000 will be tendered appointments during the ensuing five years.

The Committee made only a few minor amendments to the bill. Language was added which excludes for mandatory retirement purposes the additional promotion-list credits of three years for Veterinary, JAG and Medical Service officers and chaplains.

An amendment also was added for the purpose of crediting commissioned service from 7 Dec. 1941, rather than 8 Dec. 1941, to make the bill conform to the dates contained in past augmentation legislation.

If the measure passes the Senate in its present form—as it is expected to do—there is a good chance that the House will accept the Senate amendments and send the measure to the White House immediately.

The bill makes permanent the temporary authority of the Navy and Marine Corps to integrate officers through the grade of lieutenant in the Navy and captain in the Marine Corps.
